Capital Nurse Foundation Rotational Programme

The Capital Nurse foundation rotation programme offers you the opportunity to fast track your career. The programme is packed with fantastic opportunities to learn, develop and excel as a professional. This programme is offered for adult and paediatric nurses and is eighteen months duration, comprising three, six month's placements. With the rotation programme you can:

- ♥ choose a pathway that you want to follow,
- ♥ receive preceptorship and support from experienced nurses,
- ♥ undertake an education package that develops your leadership and clinical skills in your chosen field of practice
- ♥ secure a permanent band 5 contract and a guaranteed job on completion
- ♥ improve your chances of career development and promotion

Some examples of adult rotation pathways are: Hyper acute stroke pathway, specialist care of the older person, acute floor rotation, which includes a placement in A&E, a range of specialist surgery rotations, community placements in District Nursing services, rehabilitation and hospice. Paediatric Nurses will rotate through acute bedded services, paediatric A&E and neonatal care.

You will be supported throughout this journey by excellent preceptors, clinical colleagues and practice development nurses, whilst growing your confidence, competence and fulfilling your leadership potential.
