

Bury Care Organisation

Job Description & Person Specification

**We're thrilled
you're thinking**

of joining us!

The Northern Care Alliance NHS Foundation Trust (NCA) brings together staff and services from Salford Royal NHS Foundation Trust (SRFT) and The Pennine Acute Hospitals NHS Trust (PAT). Our dedicated team of around 20,000 staff – our NCA Family – provide a range of community and hospital services to over one million people across Bury, Oldham, Rochdale and Salford, as well as providing more specialist care services to patients across Greater Manchester and beyond.

Our Care Organisations are designed to operate within a group arrangement of hospitals, community, and healthcare services. Together they manage and are responsible for the day-to-day running of their hospital and community services, ensuring the safe delivery of high-quality care at scale.

Bury Care Organisation brings together acute provision at our Fairfield site and almost 40 community services across the Bury area.

Rated as 'outstanding' by the Care Quality Commission, our Fairfield site

delivers innovative patient-centred care, and boasts an award-winning

Stroke centre and Heart Care unit. Our community services in Bury are a mix of professionals from health, social and voluntary sectors, bringing

together the benefits of a joined up approach to health and social care.

By creating innovative ways of delivering patient centred care through an integrated approach, and close workings with the community, Bury is a place providing a unique service for the surrounding population.

Our Values

We have four core values which are a focus for how our staff and volunteers work with each other to provide care for our patients. We think of our values as a set of guiding principles to refer to when making decisions and interacting

with people and they help us to work together to continuously improve the organisation and ourselves.

These core values form part of the Organisations Performance Framework which regularly reviews how staff are performing.

Patient & People Focus

This value enables us to place the patient first we everything we do.

All staff are required to demonstrate that they:

- Communicate effectively with patients, families and colleagues
- Pro-actively personalise the service, connecting with patients and carers
- Adopt and practice the 'safe, clean, personal' ethos.

Continuous Improvement

This value ensures that the organisation including individual staff are always moving forwards and improving the ways things are done.

All staff are required to demonstrate that they:

- Look at ways of measuring and auditing improvements
- Pro-actively develop goals and objectives in support of the Trust's vision
- Identify opportunities to reduce waste and inefficiency.

Accountability

This value enables us all to recognise our own part in keeping our organisation 'safe, clean and personal' in the way we care for people.

All staff are required to demonstrate that they:

- Are transparent and results focused
- Display personal accountability towards problem-solving
- Recognise and accept accountability beyond job role.

Respect

This value is about respecting patients and colleagues alike, and also the on-going reputation of the organisation.

All staff are required to demonstrate that they:

- Are supportive and empower staff involvement
- Are consistent and understanding of others and their needs

Job Description

Job Title: Sister/Charge Nurse

Band: Agenda for change Band 6

Reports to: Ward/Departmental Manager

Responsible to: Ward/Departmental Manager

Base/Department: Emergency Department Fairfield General Hospital

Main purpose of the job:

The post holder is responsible for the assessment of patient care needs and development, devising, implementing and evaluating programmes of care, both for a specific group of patients as the named care provider and in supporting the care of all patients. As a Sister / Charge Nurse you will provide daily clinical and managerial leadership to nursing and support staff in the delivery of evidence-based practice. Actively support the Ward / Unit Manager in the effective running of the department including in their absence.

Main Tasks & Overview of Responsibilities

1. Establish and maintain effective communication with patient/carers and families about complex matters providing a warm welcoming and enabling environment to support therapeutic relationships
2. Develop specialist knowledge, in area of practise, underpinned by theory
3. Assess, plan, implement and evaluate the effectiveness of nursing care and adjust the programmes of care where indicated along with maintaining the health, safety and security of self and others in own work area
4. Contribute to the development of services
5. Contribute to quality improvement
6. Support patients, carers and staffs equality, diversity and rights
7. Lead others in the development of knowledge, ideas and work practice
8. Plan, allocate, assess and provide feedback to team members
9. Maintain and support the efficient use of physical and /or financial resources
10. You will practice in accordance with the professional, ethical and legal framework for nursing
11. Ability to work flexibly and unsocial hours to meet the demands of the service

Communications and Relationships

1. To communicate collaboratively with the wider MDT (Multi-Disciplinary team) to explore complex issues and to make complex decisions
2. To effectively communicate complex and highly sensitive information
3. To agree the arrangements for communication with the patient/family/carers, and to document these in accordance with Trust policy and the patients right to confidentiality
4. To competently receive highly sensitive information concerning patient's medical condition and provide information using persuasive, reassuring skills as required, which may include when patients/family/carers are hostile and antagonistic e.g. bereavement / special needs / learning disabilities / where English is not the first language
5. To ensure that essential information on the patients' condition and progress is recorded by self and team members appropriately according to NMC guidelines

Analytical and Judgmental Skills

1. To undertake data collection effectively using the agreed systems
2. To use clinical judgemental skills to decide upon and recommend best course of action for assessing and interpreting complex needs of patients/families/carers when a range of options exist, escalating as appropriate
3. Analyse situations and instigate emergency procedures as required

Planning and Organisational Skills

1. To prioritise workload of themselves and others, assess performance and provide clear constructive feedback to team members
2. To monitor progress of work recognising changing priorities and implement corrective actions within own limits and informing the relevant people
3. To plan, manage and organise the ward/unit environment adjusting plans/rosters to cover emergencies (i.e. rostering short term cover) in the absence of their line manager

Physical Skills

1. Physically able to assist patients with activities of daily living and moving and handling
2. Able to carry out complex observations, monitor and use relevant equipment safely, ensuring accuracy and dexterity
3. To utilise highly developed physical skills where accuracy is important e.g. in preparing and giving IV injections, assembling surgical equipment, maintaining infusions
4. Up to date and UK compliant driving qualifications are required for community posts.

Responsibility for Patient Care

1. To assess, develop, implement and evaluate specialist nursing care programmes from admission to discharge
2. To obtain people's informed consent, providing highly specialist advice and discussing the implications of the whole assessment process
3. To undertake specialist nursing interventions consistent with evidence-based practice, transferring and applying knowledge and skills to meet patients' needs, evaluating and modifying interventions as appropriate.
4. To analyse and rigorously review all aspects of the patient care plan interpreting information and using specialist knowledge and clinical judgement to liaise with MDT (Multidisciplinary Team), co-ordinating and participating in case discussions as required
5. To refer patient/family/carer to other practitioners when needs and risks are beyond one's own scope of practice or require longer term support
6. To support patients/family/carers encouraging them to promote their own health and wellbeing and to express their interests and concerns
7. To provide support and care for the patient and his/her family/carer respecting their need for privacy and dignity

Responsibility for Policy/Service Development

1. To adhere to trust policies and procedures relating to own workplace to contribute to service development
2. To evaluate current policies and procedures and identify the impact they have within their clinical environment
3. To identify outcomes of evaluation and offer constructive views on service developments
4. To implement and propose changes to policies/practices in own area
5. To evaluate with others the effectiveness of any changes and how these have improved services

Responsibilities for Financial and Physical Resources

1. To ensure efficient and effective use of material resources/supplies within the ward/department
2. To act as authorised signatory for small financial payments and timesheets
3. To ensure patients valuables and belongings are documented and managed according to trust policy

4. To monitor, control and store resources/supplies according to the requirements and specifications of the clinical environment
5. To identify any problems with resource use/availability and make recommendations for corrective action
6. To maintain accurate records of resource use

Responsibilities for Human Resources

1. Responsible for day-to-day supervision, allocation and co-ordination of clinically based teams making the best use of their abilities
2. To lead a team whilst assuming responsibility and control of the work area management in the absence of the manager
3. To participate in the clinical supervision of staff and providing relevant training and assessment
4. To participate in the appraisal process for themselves and others
5. To identify, report and address poor performance issues, where required
6. To diffuse challenging behaviour, ensuring that the situation is managed in a sensitive way
7. To participate in the recruitment and selection process
8. To participate in the identification of future workforce requirements
9. To contribute to the development of a learning environment
10. To implement disciplinary and grievance procedures where required

Responsibility for Information Resources

1. To record data accurately using the agreed systems i.e. Patient Administration System (PAS) and the Electronic Patient Record system (EPR) and paper documentation

Responsibilities for Research and Development

1. To ensure own actions promote quality and identify and manage any risks
2. To lead in setting and maintaining optimal standards of care in own work area
3. To keep up to date and act consistently with quality standards and guidelines within their own clinical area and associated areas
4. To evaluate the quality of their own and others work, and where necessary make the appropriate improvements
5. To have an understanding of the quality agenda and how standards of care can be maintained
6. To monitor the quality of work in own area, raise quality issues and related risks and bring to the attention of others
7. To lead others in understanding how their practice should change to improve quality

8. To re-evaluate following any change to ensure that improvements have been made

Audit

1. To lead in audit/benchmarking within the clinical area supporting the introduction of a change in practice if indicated

Freedom to Act

1. Work is managed rather than supervised and can act independently within appropriate occupational guidelines
2. Leads specialist area or team and may manage a case load in the community
3. To undertake all duties having regard to the NMC 'Code of Professional Conduct' for the nurse, midwife and health visitor and their professional contribution to Clinical Governance
4. Is guided by trust protocols and codes of conduct

Partnership Working

1. The requirement to interact with others in order to achieve the objectives or purpose of the post. This will range from co-operating with other team members to multi agency working.

Equality and Diversity

1. To recognise the importance of people's rights and interpret them in a way that is consistent with trust procedures, policies and legislation
2. To challenge behaviour that infringes the rights of others
3. To identify and take action where necessary to address discrimination and oppression

Making Every Contact Count
