- To have completed or be working towards completion of the unit assessment /competencies within a time frame agreed with unit manager with the support of a named mentor.

Trust Statements

Risk Management

- The management of Risk is the responsibility of everyone and will be achieved within a progressive, honest and open environment.
- Staff will be provided with the necessary education, training and support to enable them to meet this responsibility through mandatory and statutory training including those related to the environment.
- Staff should be familiar with the:
 - **Major Incident Policy**
 - **Fire Policy**
 - **Laws governing Ionising Radiation (IRMER 2000)**

And should make themselves familiar with the 'local response' plan and **their** role within that response.

Responsibility for Health & Safety

The post holder is responsible for ensuring that all duties and responsibilities of this post are carried out in compliance with the Health & Safety at Work Act 1974, Statutory Regulations and Trust Policies and Procedures. This will be supported by the provision of training and specialist advice where required.

Infection Control

Infection Control is everyone's responsibility. All staff, both clinical and non clinical, are required to adhere to the Trusts' Infection Prevention and Control Policies and make every effort to maintain high standards of infection control at all times thereby reducing the burden of Healthcare Associated Infections including MRSA.

All staff employed by the OUH NHS Foundation trust have the following key responsibilities:

- Staff must wash their hands or use alcohol gel on entry and exit from all clinical areas and/or between each patient contact.
- Staff members have a duty to attend mandatory infection control training provided for them by the Trust.
- Staff members who develop an infection (other than common colds and illness) that may be transmissible to patients have a duty to contact Occupational Health.
