Welcome to MFT.

Welcome to our Candidate Essentials Guide. We're delighted you're interested in joining us. We've put together a range of important information which we hope you'll find useful in helping you make an informed decision as to why MFT is going to be your next and best career move. And above all, why as the largest NHS Trust in England, as our Employer Brand promises; we're 'All Here For You'.

MFT is England's largest NHS Trust with a turnover of £2.4bn and is on a different scale than most other NHS Trusts. We're creating the most exceptional integrated health and social care system that will deliver the best possible results for the 1million+ patients who rely on our services every year. Bringing together ten hospitals and community services from across Manchester, Trafford and beyond, we champion collaborative working and a culture of continuous improvement, encouraging our 28,000+ staff to pursue their most ambitious goals. We set standards that other Trusts seek to emulate – and in the process, our people benefit from a scale of opportunity that is nothing short of exceptional.

Join us and you will have the opportunity to work with some of the best people in the NHS and thrive in an organisation united in its values, purpose and commitment to our patients and a drive for continual innovation and improvement.

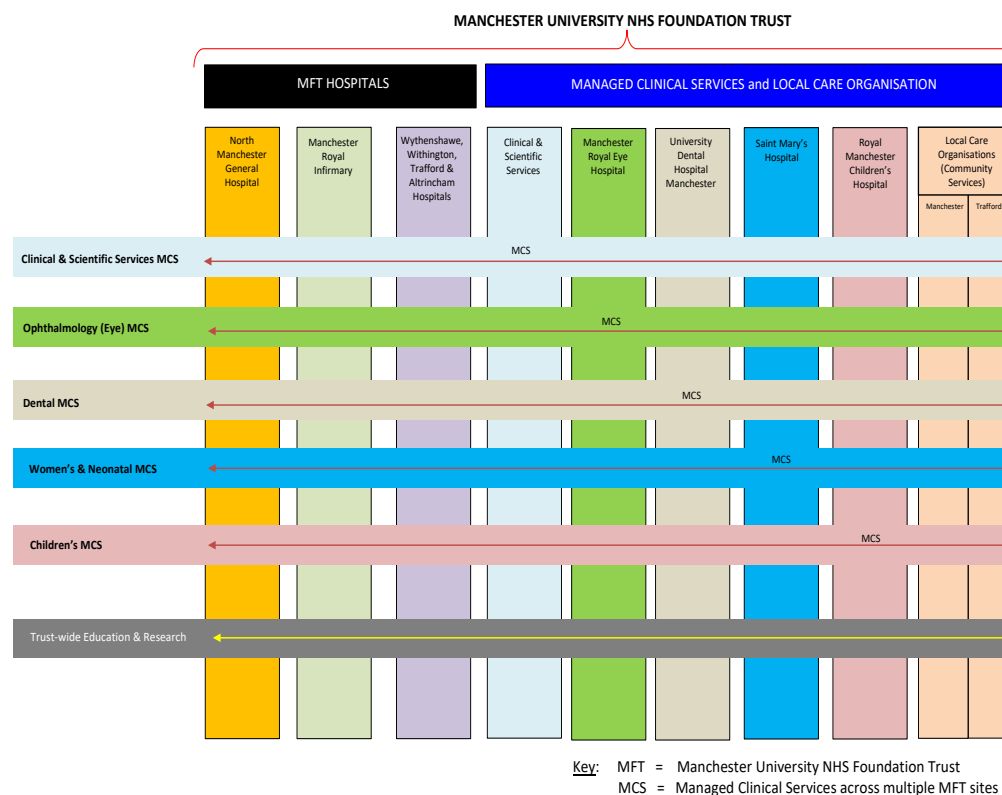

Introduction to Manchester University NHS Foundation Trust.

Manchester University NHS Foundation Trust (MFT) was established on 1st October 2017, following the merger of Central Manchester University Hospitals NHS Foundation Trust (CMFT) and University Hospital of South Manchester NHS Foundation Trust (UHSM). Details of the breadth and scale of MFT can be found at www.mft.nhs.uk. You can also view a range of videos about the Trust via this link: www.youtube.com/MFTnhs

MFT brings together outstanding people, resources and expertise to provide much better, safer, more consistent hospital care that's fit for the future, for people living in the City of Manchester, Trafford, and beyond.

The Trust is made up of over 28,000 staff working across the ten hospitals: Manchester Royal Eye Hospital, Manchester Royal Infirmary, Royal Manchester Children's Hospital, Saint Mary's Hospital, the University Dental Hospital of Manchester, Altrincham Hospital, Trafford General Hospital, Wythenshawe Hospital, Withington Community Hospital, North Manchester General Hospital, Managed Clinical Services and Community Services in Manchester and Trafford.

Introduction to Manchester University NHS Foundation Trust.

The merger created the opportunity to work together across sites and with partner organisations in new ways, to address health inequalities that exist in our city and surrounding areas. This includes the chance to make an even greater contribution to education, training, research and innovation by coming together as one organisation.

Teams from across our services and sites are already working together in new and beneficial ways. This is helping us to address the significant challenges facing NHS services across the country, as part of our commitment to deliver treatment and care to the highest safety and quality standards.

Our vision is to improve the health and quality of life of our diverse population by building an organisation that:

- Excels in quality, safety, patient experience, research, innovation and teaching
- Attracts, develops and retains great people
- Is recognised internationally as a leading healthcare provider.

This is underpinned by our strategic aims, which are:

- To improve patient safety, clinical quality and outcomes
- To improve the experience of patients, carers and their families
- To develop our workforce enabling each member of staff to reach their full potential
- To develop single services that build on the best from across all our hospitals
- To develop our research portfolio and deliver cutting edge care to patients
- To complete the creation of a Single Hospital Service for Manchester/

MFT with minimal disruption whilst ensuring that the planned benefits are realised in a timely manner

- To achieve financial sustainability

Our culture of openness and transparency continues to ensure that we report situations where care does not meet the high standards we set, and that we share the lessons learned. We also maintain a commitment to recruiting and retaining great people, offering them support, development and training opportunities as they build their careers at MFT.

Our 28,000+ staff have contributed to developing Trust values and behaviours, through a series of workshops and engagement sessions. Everyone has a chance to share their ideas and views. We host an annual MFT Excellence Staff Awards, which provides a wonderful opportunity to hear about compassion, empathy, pride and many other key NHS values in action.

MFT People Plan – ‘All Here for You, Together We Can’.

There is so much to be proud of at MFT but most of all, our committed and dedicated workforce. All of our people, whatever job they do, they contribute in some way to the positive reputation of MFT.

The last two years has been more challenging than usual because of the Pandemic but we have worked together in an uncertain environment to care for patients and to look out for each other. This has been a brilliant team effort.

The Pandemic has certainly provided a new focus on the workforce which we are keen to promote further and our MFT People Plan is our roadmap to creating a working environment that we all truly value and are proud of. The MFT People Plan - ‘All Here for You, Together we can’ - describes the actions we will take together over the next 12 – 18 months, highlighting what we can expect to see, hear and feel as MFT employees.

There are five key themes set out in the People Plan which are;

- **We want to work here;** MFT will be a great place to work
- **We look after each other;** we care for you, as you care for others
- **We are supported to be our best;** we care that you can develop your skills
- **We feel valued and heard;** we show you how important you are and hear what you have to say
- **We can shape the future;** our staff are at the forefront of shaping the future of care for our patients.

Through this roadmap, our aim is for MFT to be an Employer of Choice where talented people choose to join, remain, and grow within the Trust.

We want to hear the voices of our people so that their diverse experiences inform and shape decision making. Most of all we want to have a culture that embodies our values and behaviours.

MFT Green Plan.

We’re truly committed to our new Green Plan which sets out how our organisation will continue to play its part in making healthcare more sustainable and tackling climate change. This strategy not only sets out how we will tackle our own environmental impacts, for example by reducing carbon emissions and waste, but also considers how we will leverage and maximise positive opportunities, such as our ability to influence the sustainability behaviours of those who supply us and work for us, as well as sharing our learning more widely across the system.

As an anchor institution, we are fully committed to working with partners to bring about environmental improvements which will benefit the health and wellbeing of our region. Through this strategy, we aim to build the capacity and understanding, required across our organisation, to meet our collective objectives and improve sustainability outcomes for the benefit of all.

Our strategy defines what actions we will take as an individual organisation and, in partnership with others, to not only reduce our own impacts, but significantly improve the lives of residents in Greater Manchester.

Our Vision and Values.

Our Vision

Our vision is to improve the health and quality of life of our diverse population by building an organisation that:

- Excels in quality, safety, patient experience, research, innovation and teaching
- Attracts, develops and retains great people
- Is recognised internationally as a leading healthcare provider

Our Values

Together Care Matters

- Everyone Matters
- Working Together
- Dignity and Care
- Open and Honest

Values and Behaviours Framework

Behaviours we want

Examples of this Value in practice

Behaviours we won't accept

Examples of the opposite of this Value in practice

Everyone Matters

- I listen and respect the views and opinions of others
- I recognise that different people need different support and I accommodate their needs
- I treat everyone fairly
- I encourage everyone to share ideas and suggestions for improvements

- I am aggressive, impolite and rude towards my colleagues
- I do not communicate or share crucial information with others
- I act in a way that undermines others
- Our department works in isolation and we don't work collaboratively with others

Working Together

- I listen and value others views and opinions
- We work together to overcome difficulties
- I effectively communicate and share information with the team
- I do everything I can to offer my colleagues the support they need

- I do not listen to other people's issues or problems
- I lack empathy when supporting others
- I tell my colleagues and patients I am too busy to help
- I show little energy or enthusiasm in the work that I do

Dignity and Care

- I treat others the way they would like to be treated – putting myself in their shoes
- I show empathy by understanding the emotions, feeling and views of others
- I demonstrate a genuine interest in my patients and the care they receive
- I am polite, helpful, caring and kind

- I discriminate against others
- I make no attempt to see things from other people's point of view
- I exclude others based on their values and beliefs
- I do not listen to what others say

Open and Honest

- I admit when I have made a mistake, and learn from these
- I feel I can speak out if standards are not being maintained or patient safety is compromised
- I deal with people in a professional and honest manner
- I share with colleagues and patients how decisions were made

- I am dishonest and cover up my mistakes
- I blame others for my mistakes
- I do not keep people informed when problems occur
- I openly criticise other people's views and opinions

The 'MFT Values' are the principles which guide the way we work every day, to ensure our services are the very best they can be for our patients and for our workforce.

Our Hospitals / Managed Clinical Services / MLCO / TLCO.

Manchester Royal Infirmary

Founded in 1752 with just 12 beds, we've grown to become a major research and teaching hospital working with Manchester University's Medical School and a regional and national centre for services as diverse as kidney and pancreas transplants, haematology, vascular, major trauma, liver and pancreas surgery, rheumatology and HIV care. Around 145,000 patients visit our Accident and Emergency Department each year. Our many leading roles include running the largest home kidney dialysis programme in the country, being the first to provide closed loop insulin pumps for patients with diabetes and in the first group of hospitals to provide the revolutionary CAR T cell therapy for blood cancers.

Royal Manchester Children's Hospital

With 371 beds and 220,000 patient visits each year, we are the largest children's single site hospital in the UK. Treating children and young people from the North West, nationally and internationally, we offer a range of specialties including oncology, haematology, bone marrow transplant, burns, genetics, and orthopaedics, plus we have a dedicated paediatric emergency department.

University Dental Hospital Manchester

The Dental Hospital was founded in 1883 to serve the dental side of the medical school by allowing staff and students to attend to patients unable to pay for private dental treatment. All these hospitals were intended for the poor, for it was not until the end of the 19th century that richer folk sought hospital treatment. It was opened in Grosvenor Street, All Saints Manchester. Since then the dental hospital and school have occupied several other buildings.

Our Hospitals / Managed Clinical Services / MLCO / TLCO.

Saint Mary's Hospital

We provide a wide range of world-class medical services for women, babies and children. Our services include Maternity Services, Gynaecology, the Manchester Centre for Genomic Medicine, Newborn Intensive Care and the Sexual Assault Referral Centre. As a regional centre of excellence, we're committed to providing the highest quality care to patients and their families.

Manchester Royal Eye Hospital

Providing care to the City of Manchester for over 200 years and now based in a new Eye Hospital, we provide an extensive range of eye services for both adults and children. Our facilities include the Emergency Eye Department, Ophthalmic Imaging, Ultrasound Unit, Electrodiagnosis, Laser Unit, Optometry, Orthoptics, the state-of-the-art Manchester Eye Bank and Ocular Prosthetics. Our consultants are assisted by a superb after-care team that prides itself on the delivery of the very best in patient care.

Wythenshawe Hospital

We are a major acute teaching hospital and a recognised centre of clinical excellence, for example, for burns, lung cancer and respiratory services. We offer a large portfolio of specialised commissioned services including cardiothoracic, transplant and vascular surgery and breast care screening. We host a number of nationally commissioned services including National Aspergillosis, Regional Burns, Adult Cystic Fibrosis and are one of only five sites in the UK to provide ECMO.

Our Hospitals / Managed Clinical Services / MLCO / TLCO.

Withington Community Hospital

Withington Community Hospital is a purpose-built modern building which provides specialist care to those patients requiring diagnostic treatment, day surgery and community services. It currently has approximately 350 full time staff and sees around 155,000 patients in clinics and departments every year.

Trafford General Hospital

The birth place of the NHS in 1948, with a clear identity within the community, Trafford General Hospital now provides a range of district general hospital services serving a population of approximately 226,600 people residing in the surrounding area of Trafford, Altrincham and Greater Manchester.

North Manchester General Hospital

Now part of the wider family of MFT hospitals creating a Single Hospital Services for Manchester. The hospital has a full accident and emergency department, which includes a separate paediatric/A&E unit. It also offers a full range of general and acute surgical services and is the base for the region's specialist infection disease unit. In recent years, the hospital has undergone extensive work to improve its size and layout. The hospital benefitted from a £35m investment in the Women and Children's department which now offers a level 2 neonatal unit, maternity, labour and children's wards.

Altrincham Hospital

Altrincham Hospital is a purpose-built facility providing a high quality, modern, user-friendly environment for patients and staff and a range of general and specialist outpatient and diagnostic services.

Our Hospitals / Managed Clinical Services / MLCO / TLCO.

Clinical and Scientific Services

Clinical and Scientific Services (CSS) is a Managed Clinical Service (MCS) that provides an extensive range of services to the thousands of patients treated across our ten hospitals within MFT and the local community, as part of the LCO/TLCO. As an MCS, our Clinical and Scientific Services are made up of 5 divisions: Imaging, Pharmacy, Anaesthetics and Critical Care, Laboratory Medicine and Allied Health Professions. In order for us to provide effective services for all the areas, we employ around 4,500 clinical, administrative and managerial professionals. This is a diverse workforce that receives, on average 1,126,817 referrals per month and it costs us £330 million to run our services each year.

Community Health Services

Manchester Local Care Organisation and Trafford Local Care Organisation are the public sector partnership organisations that provide NHS community healthcare services and adult social care services across Manchester and Trafford. MLCO and TLCO have a shared leadership function and almost 4,000 staff are now deployed to work with the local care organisations to provide day to day services ranging from district nursing to health visiting and adult social work to health prevention.

Alongside that, they play a vital role in improving health and wellbeing across the areas that we serve; working in new ways to provide more care close to people's homes in the community and to build on what's great in the neighbourhoods across Manchester and Trafford. MLCO and TLCO are pioneering organisations at the forefront of working in new ways in health and social care in England. Healthcare posts in the two organisations are hosted by Manchester University NHS Foundation Trust.

Hive.

MFT is the largest Foundation Trust in the UK, so we need an integrated and innovative Electronic Patient Record (EPR) solution. As we strive to deliver a single hospital service across our Trust, we need to provide better continuity of care wherever patients are treated by bringing our varied systems together.

With this in mind, in September 2022 we are introducing Hive, the largest IT transformation programme MFT and the NHS has ever embarked upon and will allow our teams and patients to benefit from revolutionary medical technology.

In simple terms, Hive is a major clinical transformation programme which will support delivery of the Clinical Services Strategy. It will have, at its heart, the Electronic Patient Record solution from Epic bringing all our patient information together in one place helping us work together across professions to improve services for patients and people who use our services. Hive means much more than the introduction of a new digital system. It means wide-spread change, and improvement, in every part and process in the organisation.

In summary, our vision for Hive is to transform the quality of care and the experience for our patients and staff by having the right information in the right place at the right time; first time, every time.

Follow us on Twitter at [@MFT_Hive](#) for all the latest updates!

MFT Leadership Structure.

Following the creation of Manchester University NHS Foundation Trust, a new leadership structure was implemented, drawing on existing talent from the two previous Trusts and also attracting high calibre leaders to join us from across the UK. We now have:

- A Group Board of Directors which includes the Chairman, Non-Executive and Executive Directors.
- A Council of Governors.
- A Management Board (Group Management Board).
- A team of Hospital / Managed Clinical Services / Local Care Organisation Chief Executives.

MFT has a corporate governance structure in place to support the achievement of good performance against our key standards. The Trust Board of Directors is responsible for the oversight of MFT performance, which is underpinned by a number of Committees that provide scrutiny, risk management and seek assurance that standards are being achieved.

Operational groups are in place that focus on planned and emergency / urgent care delivery, the outcomes of which feed into organisational committees and the Board of Directors.

In addition, to support oversight of the wider group of Hospitals / Managed Clinical Services (MCS) / Local Care Organisation (LCO) post-merger, a new Single Operating Model was developed which describes how the Hospital Sites / MCS / LCO will function and interact with the Group Executive Directors.

This is underpinned by the Accountability Oversight Framework (AOF) which contributes to the overarching Board Governance Framework,

enabling the Trust's Board of Directors to fulfil its obligations and effectively run the organisation.

In summary, Manchester University NHS Foundation Trust incorporates:

- A workforce of over 28,000+ staff members across ten hospital sites
- A new matrix structure, with seven hospital sites underpinned by Managed Clinical Services
- A Group Board of Directors and Group CEO and a sub-Board infrastructure at Hospital / MCS / LCO site level.
- A Group corporate function, which will steer policies and performance expectations and hold hospital sites to account through the Accountability Oversight and Performance Framework.

Enjoying Manchester.

There's a real air of expectation and excitement around Greater Manchester at the moment. The devolution deal negotiated in 2014 gives the region the chance to better meet the needs of the people that live and work in the area.

The region has already experienced success through its councils working together. Now it has additional powers and greater accountability through an elected mayor.

These powers relate to local transport, planning and jobs. Greater Manchester has a £300m fund for housing, enough for 15,000 homes over ten years, extra funding to get 50,000 people back into work and extra budget to support and develop local businesses.

Most important of all for the Trust and its people, Greater Manchester now controls £6 billion of public funding for health and social care. This means it can better respond to local people's needs, tapping into the experience and expertise of local NHS services to focus on preventing ill health and promoting healthy lifestyles.

For MFT, this gives us the chance to control our own destiny. We're proud to be working towards the harmonisation of health services in Manchester, with the ultimate goal of one hospital Trust for Manchester - we're excited about the opportunities this gives to our people.

Manchester Living

Manchester offers the best of both worlds, a vibrant world city, two hours by train from London but with the breathtaking scenery of the Lake District, Peak District, Cheshire and North Wales all easily accessible. The city is well served by transport, with regular train connections across

the UK, and Manchester International Airport providing direct flights to all major European cities. It's easy to get around in the city due to its comprehensive bus, tram and local train network.

As far as setting up home in Greater Manchester goes, there are properties at a wide range of price points to rent or buy. From city to suburban to rural living, there's something for all tastes: amazing city penthouses, contemporary apartments, Victorian terraces, semi-detached houses and traditional family homes.

Each area of Manchester has its own distinct identity, offering a lifestyle to suit everyone and a host of different shops, restaurants and leisure activities to explore within a compact area.

The relocation of staff from the BBC and other leading media organisations to Media City cements the region's status as an affordable and attractive proposition for employment and home life alike.

It's also a great place to learn. With the world-class University of Manchester, Manchester Metropolitan University, and the Royal Northern College of Music, the city boasts Europe's largest urban higher education precinct. Equally, Greater Manchester is home to a variety of great schools and colleges.

Significant public and private sector investment over the last 20 years has transformed the city into one of the UK's most innovative and modern urban hubs. Despite this, Manchester remains proud of its central role in the industrial revolution and has fiercely protected its heritage and historic architecture.

It's no wonder that The Economist Intelligence Unit in 2014 named Manchester among the world's 50 most desirable cities ahead of London, New York, and Rome.

Enjoying Manchester.

Whether you are into music, the arts, shopping, food or sport, Manchester has the range of facilities and opportunities to suit your tastes.

The city is rich in music venues, large and small. It has two symphony orchestras, an internationally acclaimed opera house and Manchester Arena, one of the largest and busiest indoor arenas in the world with some 21,000 seats. This and smaller venues such as Manchester Apollo and the Manchester Academy showcase a vibrant music scene.

The arts are also thriving in Manchester, with a number of galleries and theatres showcasing the best of traditional and contemporary culture. And, from high street chains to designer boutiques and vintage stores, shopping is great here.

From the famous Curry Mile in Rusholme, with over 50 restaurants serving Indian and Pakistani food, to Thai, Chinese, Japanese, Italian – Manchester offers something for everyone. There are also plenty of Halal and Kosher retailers across the city, and a range of vegetarian and vegan cafés.

Sports fan will find plenty to keep themselves occupied. As well as big football clubs like Manchester United and Manchester City, our city also has an Olympic size swimming pool at the Manchester Aquatic Centre, and a velodrome, while Lancashire County Cricket club is close by. If you prefer taking part, there's the chance to experience just about every activity you can imagine, from rock climbing in the nearby Pennines and Peak District to the UK's longest - and the world's widest - real-snow indoor ski slope at the Chill Factor.

Diversity Matters.

MFT is committed to promoting equality of opportunity, celebrating and valuing diversity and eliminating any form of unlawful discrimination across our workforce, ensuring our people are truly representative of the communities we serve. All individuals regardless of age, disability, gender reassignment, marriage or civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation are encouraged to apply for this post.

As an organisation we are truly committed to being an employer of choice that recruits and develops staff fairly, so that talented people choose to join, remain, and develop within the Trust.

Our aim is to be a diverse workforce that is representative at all job levels and we therefore positively welcome applications from the diversity of the population we serve. Equal opportunities are a key guiding principle to all our work including that our recruitment practices provide equal access to all.

Our Staff Networks.

Manchester University NHS Foundation Trust (the Trust) is committed to creating inclusive cultures where staff feel a sense of belonging for who they are and are valued. The Trust has a number of Staff Networks to support with building a sense of belonging. The Trust has a Black, Asian and Minority Ethnic (BAME) Staff Network, a Disabled Staff Network, and a Lesbian, Gay, Bisexual and Transgender (LGBT+) Staff Network.

The aims of the networks are:

- To support staff from different equality groups
- To enable the Trust to gain a better understanding of issues faced by staff in the workplace
- To share experiences and provide mutual support

If you join our Trust, you'll have direct access to key contacts in these networks to support you.

Supporting Members of The Armed Forces.

MFT is committed to embedding and upholding the principles of the Armed Forces Covenant. We're that committed to this, we're currently undergoing Gold Accreditation through the MoD Employer Recognition scheme as we want to stand out locally, regionally, nationally and internationally as an organisation that demonstrates exemplar support, care and unrivalled career opportunities towards the Armed Forces community.

The key principle of the Covenant is recognising those who serve in the Armed Forces, whether Regular or Reserve, those who have served in the past, and their families and ensuring all these groups face no disadvantage compared to other citizens in the provision of public and commercial service. The Covenant also applies special consideration where appropriate in some cases, especially for those who have given most such as, the injured and the bereaved.

As an organisation, we recognise the value serving personnel, Reservists, and Veterans can bring to NHS roles; hence our huge support of the Covenant.

As a signatory to the Covenant, we:

- Promote that we are a 'Forces Friendly' organisation.
- Commit to improving the health outcome of patients who are serving personnel, reservists and veterans and their families.
- Strive to support the employment of serving personnel, reservists and veterans and their families.
- Support our employees who are members of the Reserve Forces and Cadet Force Adult Volunteers, including by accommodating their training and deployment where possible.

- You can find out more about our commitment to the armed forces community here, including information on how we support patients from the armed forces community and our commitment to the 'Getting it right first-time' programme: <https://mft.nhs.uk/community/armed-forces-covenant/>.

To learn more about the Armed Forces Covenant and what it means for hospitals to be accredited, simply visit:

<https://www.gov.uk/government/collections/armed-forces-covenant-supporting-information>

At MFT, our aim is to be recognised as an outstanding Forces friendly employer- this includes welcoming applications from ex-military personnel but also from your families and for those individuals who are involved in the Reserve Forces and are Cadet Forces Adult Volunteers.

The great news is that being part of the armed forces community has provided you with endless transferable skills and knowledge and coupled with your personal life experience, this makes you very marketable to an organisation like ours. We totally value the unique experience you can bring including outstanding skills as either a qualified Doctor, Consultant, Nurse, AHP, Health Care Scientist, Pharmacist or in a professional capacity acquired in roles that have been geared around Project Management, Operations, Human Resources, Transformation, Informatics, Estates & Facilities, Procurement, Governance, Equality, Diversity & Inclusion and much more.

Supporting Members of The Armed Forces.

There are lots of similarities between MFT and the armed forces which make us an employer of choice for the armed forces community –in our case, improving the health and life chances of the thousands of patients our services and hospitals serve.

MFT are dedicated to developing wrap around support for skilled people from the armed forces community to demonstrate that we're the very best organisation to help you take your career on a new and exciting trajectory.

Here are some of the ways we are committed to doing this:

- We award 10 Days Paid Special Leave for active Reservists to assist you with additional military training and annual camps
- We award 5 Days Paid Special Leave for Cadet Forces Adult Volunteers (CFAVs) to assist you with additional CFAV training and annual camps
- Advice on the application and selection process
- Connect you with MFT Employees from the Armed Forces Community
- Dedicated 'Work Experience' placements *where Covid restrictions allow
- Quarterly Information sessions – delivered in partnership with the GM Health and Social Care Careers Hub and other GM NHS organisations; advertised within Events on Career Transition Partnerships via this link: www.ctp.org.uk/events
- Our vacancies advertised through platforms such as, Career Transition Partnership <https://www.ctp.org.uk/> and Forces Families Jobs <https://www.forcesfamiliesjobs.co.uk/>
- Partnership with 'Walking with the Wounded's Employment Programme' who have adopted an Individual Placement & Support (IPS) model to support members within the Armed Forces Community to seek employment within MFT – see link for further information <https://mft.nhs.uk/community/armed-forces-covenant/employment-support-for-armed-forces/>

We recognise for some of our armed forces community; it may well have been a while since you've completed an application form or have undergone an interview. That's why we encourage you to contact us via armed.forces@mft.nhs.uk to discuss how we can support you, whether that be connecting you for an informal conversation with a current employee from the armed forces community so can you hear first-hand how they've been supported or to provide advice and up to date information on current vacancies across our Trust that match your background, skills and motivation along with support and direction on completing an application form and practical tips for preparing for the selection process.

What's more, we actively encourage you to contact us if you're looking to access our dedicated 'Armed Forces Work Experience Programme' – this enables you to undertake activity to support you into employment. We'd need to know an outline of the type of role you were looking to gain employment in either within MFT or at an alternative Trust and we'd work with you to develop a tailored programme to aid you in gaining insight to the culture, skills, experience and attitude you'd need to be successful in landing a role in your desired field.

We hope we have demonstrated our ambition and passion to support our amazingly brave, dedicated and highly skilled Armed Forces Community and the wide range of opportunities and support on offer to you and your family members as an employer of choice for active and ex-military personnel.

Join us now, and you'll be at the forefront of a pioneering health and social care system as well as being a valued team member with the largest NHS Trusts in the country. We truly hope you take the leap with us!

Employee Health and Wellbeing.

Our people are the most important asset in our organisation and as part of our MFT People Plan, one of its key principles is '*caring for you as you care for others*'. We know that a healthy, happy, engaged & motivated workforce is linked to delivering exemplar patient care so it's in our best interest to ensure we support your health and wellbeing during these challenging times, and beyond. As such, our Employee Health and Wellbeing Service provides services to support and promote a safe and healthy working environment. Our philosophy is quite simply work is good for both physical and psychological health. And, to support your health and wellbeing during these challenging times, and beyond our team take pride in the development of high quality services, supporting all aspects of staff wellbeing. This includes Fitness for work referrals, Immunisations and vaccinations, Physiotherapy Treatment Service, Post Exposure Incident support, 24 hour 7 days a week access to Employee Assistance Programme, Managers Guides and Training to all types of Employee Health & Wellbeing programmes.

Looking After You During COVID-19.

We understand that this is something on most candidates' minds when considering the world of work and certainly before you choose a career with us. In normal circumstances, we'd encourage you to come on site to meet with some of our team, have a look at the working environment and get a feel for our culture. Current restrictions due to COVID-19 in our clinical areas may mean this may not be possible - this is to safeguard both our workforce, our patients and members of the public.

You can however engage with us in other ways to understand if MFT is an organisation you'll be happy and excited working in. You can do this by taking a look at our careers site and social media platforms to find out more about our Trust so you can get to know us and decide if we're right for you. What's more, if you have role specific queries before applying,

consider contacting the Hiring Manager whose details should appear on the advert.

In terms of workplace safety, our Nurses strictly follow the Trust's infection prevention and control guidance. We're well-equipped to manage any suspected or confirmed cases of COVID-19, and we also have close links with infection control teams and Public Health England.

Our Benefits.

We offer a unique and comprehensive NHS benefits package, including:

Generous holidays – starting at 27 days per year (plus bank holidays), increasing to 29 after five years' service and rising again to 33 after 10 years' service.

Excellent NHS Pension package – fully protected against inflation.

Staff Support – our self-referral service is open to all staff and offers individual counselling and therapy for personal and work-related issues.

Employee Health & Wellbeing – we deliver a range of services including Fitness for Work support, rapid access physiotherapy, emotional resilience and wellbeing training, immunisation and vaccination programmes.

Learning and Development Support - we offer a Corporate and Local Induction & a wide range of online courses via our Learning Management System. This includes Continuing Professional Development.

Chaplaincy Services – spiritual, religious, and non-religious support for all staff, patients & visitors.

Appraisals and Talent Conversations – we'll give you a personal development plan and review your progress annually to make sure you're always taking your career forwards.

Rewards Team – we have a dedicated team who can offer you advice on Parental and Family support and a bespoke internal intranet site where you will find lots of interesting information on benefits and discounts.

Staff Discounts – our Trust offers a range of discounts to include gyms, restaurant and bars, hair and beauty, travel and much more.

Salary Sacrifice Scheme – we run a scheme which you can use part of your salary against a non-cash benefit which brings about savings for you– this can be used against set schemes we have in place for cars, bikes and accessories, car parking & day nursery.

Interest Free Travel Loans/ Discounted Travel – we offer interest free travel loans, enabling you to purchase an annual ticket for the Metrolink, Train, and Buses. You can also purchase a discounted weekly or monthly Stagecoach bus ticket.

On site Nurseries – you can pay for this facility through our salary sacrifice scheme:

First Steps Day Nursery - based on our Oxford Road site for children aged 6 months to 5 years.

Kids Planet Day Nursery - based on our Wythenshawe site for children aged 6 weeks to 5 years.

Flexible Working.

MFT would like to develop a committed, flexible workforce that is able to adapt to the changing needs of the NHS. We aim to support employees who wish to work flexibly, to allow them to maintain a healthy work life balance and fair consideration will be given to any flexible working requests.

COVID-19 Vaccinations.

COVID-19 vaccination remains the best way to protect yourself, your family, your colleagues and of course patients from the virus when working in our healthcare settings. Whilst COVID-19 vaccination is not currently a condition of employment, we do encourage our staff to get vaccinated. If you are unvaccinated, there is helpful advice and information available by searching on the 'NHS England' website where you can also find out more about how to access the vaccination.

Probationary Period (For Some Roles).

If you are applying for a vacancy which is graded between a Band 2 and a Band 9 (Agenda for Change AfC), these roles are subject to a six-month probationary period (with exception of Medical and Dental roles). If successful, the terms of the probationary period will be outlined in your contract. The objective of our probationary period is to provide you with time to learn about your role, the department, colleagues, the Trust and its expectations. Once you start in post, your new line manager will meet with you to agree key milestones and to provide any support you'll need to aid you in successfully meeting the probationary period.

DBS Costs (For Relevant Roles).

For roles that are subject to a DBS, our Trust policy requires that the cost of submitting & processing the successful applicant/s DBS application be recovered via salary deduction following commencement in role. The amount of £26.85 (standard disclosure) or £43.85 (enhanced disclosure) which will be deducted from your salary in the first 3 months of employment. It's important to be aware that if you wish to withdraw from a conditional offer of employment from us once a DBS application has commenced, you will be still liable for payment.

Applying & Moving Through To The Selection Process.

Applying with us is simple and straightforward. Read on to get some top tips to consider before you press 'apply'.

Before applying, it's important to read the Job Description and Person Specification for the role you're interested in and decide if your qualifications, skills and experience are well suited to our requirements. After all, this is what we will be using to make an informed decision about those candidates we progress to the next stage.

- You'll then need to submit an online application. This should tell us about your education, key achievements and qualifications plus your relevant skills and experience (both work and non-work related if relevant).
- It's also an opportunity to tell us about why you wish to join the team/service/department you're applying for and what you hope to gain by joining us. Instead of just listing tasks you do or have done in a job, think carefully about communicating strong examples that really demonstrate to the hiring manager how closely your skills and experience match up with the key factors of the person specification.
- Remember, most person specifications have a series of 'essential criteria' so as a matter of course, hiring managers will look to determine who matches this closely, but also, even better if you meet the essential and some or all of the 'desirable criteria' too. That's what might help you stand apart from other applicants.
- More than anything, take time to think about your application and if you've applied before, don't just re-submit the same application for another role – each attempt should be well thought through and be tailored to the skills, experience and knowledge required for the role you're applying for.

If you're shortlisted for a role you apply for, you'll be contacted by our Recruitment Service Centre team via email, and they'll inform you about the selection process. This will vary according to the role you're applying for but typically this process could be carried out virtually via MS Teams so you'd need to ensure you have a device or access to a device that would allow you to use this. If you don't have MS Teams installed, please use click here to download it: <https://www.microsoft.com/en-gb/microsoft-365/microsoft-teams/download-app>. Alternatively, you may be asked to attend in person and come on site to one of our locations.

Closing Vacancies Early.

Just so you're aware, on occasions, we may decide to close a job vacancy earlier than the published closing date if we've received sufficient applications. Please bear this in mind and therefore aim to apply for the role as soon as you can to avoid missing out on the opportunity.

Information around Spam/Junk Account.

In order to keep on track of your application, it's important to regularly review the email account (including junk/spam boxes) from which you have applied as we'll use this to contact you regarding your status.

Special Requirements.

As an inclusive employer we're here to support you. If therefore you have any personal requirements that will enable you to participate in our recruitment process, simply contact a member of the Recruitment Service Centre team by emailing resourcing@mft.nhs.uk at the earliest opportunity. This will help us to ensure that measures can be put in place to enable your application.

Contact Us.

For any queries in relation to recruitment, simply email our team at resourcing@mft.nhs.uk and we'll be happy to help you.

We're excited to hear from you! Wishing you the very best of luck with your application!
