New post

16.04.2024 – 15.04.2025

Messages from our senior leaders:

Chief Executive Officer

Paul Calaminus

Thank you for showing an interest in working at NELFT. I am very proud to be the Chief Executive, working with so many amazing colleagues across the organisation. We provide mental health and community services to over 4.9 million people across northeast London, Essex, and Kent. Our aim is to deliver the best care by the best people. We are focused on working collaboratively to enable our colleagues to improve outcomes for our local communities through innovation and integration. We have invested £2.4 million pounds in clinical leadership, to ensure the clinical voice is heard. Our strong track record of operational and financial management allows us to this, investing in the development of our workforce as well as our services, particularly in the digital space.

At NELFT we strive towards a culture that is both just and compassionate for those we care for and for our colleagues. We firmly believe that respecting and valuing diversity, and engaging our workforce and our patients, improves patient experience and outcomes.

We aim to care for our colleagues as much as we do our patients and the health and wellbeing support, we have in place is testament to this. Our staff survey demonstrates that these are not just words but are a widely shared set of beliefs.

As a mental health and community trust we believe very strongly in partnership working. We have a well-established track record of collaboration with neighbouring healthcare organisations and local authorities that has enabled us to develop improved pathways of care and better outcomes for patients.

I hope that as you read this job description and the supporting information that you will consider a career with NELFT. It will be one that I have every confidence will be rewarding and fulfilling and will make a huge difference to the quality of life for those that we serve. I do hope I get the privilege of working alongside you in the future. Regards, Paul

Chief Medical Officer / Responsible Officer

Dr Caroline Allum

Caroline.Allum@nelft.nhs.uk

I would like to thank you for your interest in NELFT and wish you every success in your application.

We have a strong Medical Leadership team and believe the Clinical voice is key in driving best care in NELFT.

We are an innovative organisation and are actively engaging in exciting projects across the region, Integrated Care Systems, and within our organisation to make services better for our residents and patients. We hope you will play a key part in continuing our journey.

I look forward to meeting you. Regards, Caroline.

Best care by the best people

Medical Director

Dr Vincent Perry
Vincent.Perry@nelft.nhs.uk

Thank you for taking an interest and hopefully applying for a medical role in NELFT.

I have worked in NELFT for the past 20 years and cannot see myself working for another Trust. NELFT have provided me with several opportunities throughout the years to grow and develop, which will be the same for you.

We have a robust medical appraisal system, which is recognised as one of the best across London. We have a formidable medical educational department, research department, and Quality Improvement teams.

NELFT is entering a new phase in its service delivery, with several transformation project taking place. We have strong Medical Leadership in NELFT, and we are keen for the clinical voice and the patient voice to guide our service delivery decisions and developments. We also remain mindful of best practice.

I hope you will seriously consider becoming a key player in our journey to an Excellent CQC rating. I wish you all the best with your application and interview preparation and look forward to working closely with you. Regards, Vincent.

Associate Medical Director – Essex

Dr Viviana Porcari
Viviana.Porcari@nelft.nhs.uk

It is a great time to come and work for NELFT and in particularly, our Essex community services.

In Essex we have a vibrant and diverse group of doctors working across several community services, spanning from CAMHS, Paediatric medicine, Old Age Psychiatry and Geriatric medicine, with strong links with our local authorities, acute services, and community collaborative groups.

You will join a dedicated group of substantive Consultants and Staff Grade doctors within the service and will have opportunities to influence future direction, treatment models, and service design, in the area which you work.

There are many opportunities in Essex to follow an interest or develop skills in medical education. We will soon have Year 4-5 Medical students from the Anglia Ruskin University in Chelmsford, and we have created links to have training posts across the county for core psychiatric trainees and higher psychiatric trainees.

Essex is a great county, where you can enjoy beautiful countryside villages, historical towns, stunning waterfronts, and quiet coastlines, while easily commuting into London.

We welcome newly qualified and established doctors and depending on service needs, you will be supported in working within a hybrid model of face to face and remote sessions and we can offer flexibility in terms of work patterns and contracts.

We are just waiting for you! Regards, Viviana.

Best care by the best people

1.1 Job Title:

Eating Disorders Consultant Paediatrician

This is an exciting opportunity to be part of the newly formed community based, South Essex and Thurrock (SET) CAMHS Eating Disorder Service, covering the county of Essex. The role is based at 125 New London Road, Chelmsford, Essex CM2 0QT.

The post is part-time – 2 Programmed Activities (PAs) with a DCC:SPA split of 1.5:0.5. This post would be suitable as an additional role for an existing Paediatric Consultant working in other roles within Essex; or this could be a standalone post.

The post holder will be expected to work alongside the Child and Adolescent Consultant Psychiatrist (currently out to recruitment); jointly providing medical leadership to the team. The postholder are expected to support the Consultant Psychiatrist with assessment, supervision, and the management of with children and young people under the age of 18, with an eating disorder. The post holder will also support liaison with secondary and primary care colleagues and reviewing/developing protocols to ensure effective and efficient service delivery and joint working with partner agencies, including the acute Trusts, and the voluntary sector.

The post holder will be a member of the multidisciplinary team and have support of other team members in the management of patient under the care of the service.

As the service is exclusively an outpatient service, the post holder will not hold an inpatient case load, but the post holder will work with the acute Trusts and mental health/specialist eating disorder inpatient units in the event of patients needing admission to hospital, to ensure smooth transition to different levels of care. This will consist of attending, where appropriate, CPA meetings, transfer of care meetings, and advising and planning the delivery of a community care package at patient discharge meetings.

The post holder will not be expected to act as a primary case holder of a group of patients but will largely be contributing by providing paediatric clinical advice and support with liaison to other paediatricians for the cases held within the team as a whole.

The post holder will be expected to attend and participate in MDT team meetings and will be responsible for offering consultation to the team on the physical monitoring and well-being of young people under the care of the ED team, advice on any necessary physical investigation, review of investigation results (blood tests, ECG and others as indicated). The successful candidate will work closely with the dietician, nurses, psychiatrist in the team, and advise them on the basis of their paediatric expertise, including when nasogastric feeding or admission for refeeding might need to be considered as part of the intervention.

There is an expectation that the successful candidate will help develop good links with acute and community paediatric colleagues in Essex.

There are no trainee doctors attached to this team at the moment, although we would like to develop opportunities with the local paediatric community teams, GPs and psychiatric training scheme providers, to offer training opportunities within the team.

We currently have one Paediatric higher trainee in Essex. We have applied for CAMHS higher trainee posts with one already in post. There are opportunities for teaching both in terms of clinical work and curriculum delivery. Although this post does not currently have any attached training post there is due to be expansion to both core and CAMHS higher training numbers in Essex and we would welcome consultants who are educational supervisors or who wish to undertake training and apply to have training post(s) in Essex.

On-call responsibilities:

This post does not have any out of hours on-call duties.

The post also does not include any external duties.

Accountability:

The postholder will be professionally and clinically accountable to the Associate Medical Director for Essex (currently Dr Viviana Porcari), and operationally accountable to both the Associate Medical Director and the Director of Children Services Essex & Kent, via the Assistant Director (currently Tina Russell).

The post holder will be a suitably qualified Consultant Paediatrician, or eligibility for it. The post holder will be a GMC registered clinician responsible for patients allocated to them and will assess, manage, plan, and deliver care.

The post holder will support their peers and team leader and be an effective team member whilst working on their own initiative. They will have a commitment to collaborative working and actively supporting and liaising with other health and social care professionals and agencies.

1.2 Main responsibilities:

1. To be responsible for organising and prioritising own and others workload in the day-to-day allocation of work.
2. To deputise when required in the team manager's absence and delegate appropriately to other medical staff.
3. To have organisational knowledge relating to Trust protocols and procedures and adhere to them.
4. To be responsible for providing accurate records of information required by the Trust for audit purposes.
5. To ensure effective risk management at team level by accident/incident reporting, assessing, and controlling risk and ensuring residual risks are added to the Trust's risk register.

Clinical Skills:

1. To act as an autonomous, registered practitioner who is legally and professionally accountable for own unsupervised actions guided by the professional code of conduct and Trust guidelines and protocols.
2. The post holder will have full registration with a licence to practice on the General Medical Council (GMC).
3. Further professional knowledge will have been gained through accredited courses, workshops, study, and in-house training programmes.
4. To be responsible, and accountable, for service delivery to clients/patients.

5. To be able to assess and develop care plans to meet the complex needs of patients with a variety of conditions. This includes chronic, acute, and palliative care within own competencies, recognising own limitations and seeking advice when necessary. This will include continuously evaluating and acting on outcomes.
6. To be able to initiate referrals to other health professional specialist services and agencies.
7. To provide patients and relatives with information and education thus ensuring they have meaningful choices that promote dignity, independence, and quality of life.
8. To ensure practice is supported by research, evidence-based practice, literature, and peer review.

Training & Supervision:

1. To act as clinical supervisor to junior colleagues (FY/CT/GPVTs/ST), providing effective education, facilitating their development, and promoting high standards of medical care.
2. Ensure junior colleagues are actively supported to enable them to achieve their learning needs.
3. To ensure own continued professional development and support a culture of lifelong learning in self and others.
4. To undertake, and assist, in the planning of own mandatory training and workshops.
5. To undertake a regular appraisal, developing a personal development plan that includes clinical competencies reflecting the health needs of the local population and relates to Trust strategy.
6. To support new staff and their integration within the team.
7. To support training as part of the role including changes to professional development and implementation of new policies and guidelines.

Education:

1. To provide in-service training to junior doctor, and other members of the multidisciplinary team.
2. To contribute to the teaching of Medical Students and Trainee Doctors.
3. To engage in the weekly Academic Teaching Programme

Administration:

1. To follow good medical practice standards in documenting all assessments of patients and to share necessary information with other health professionals.
2. To provide reports on time.
3. To ensure that all letters and summaries are checked and sent promptly to referring GPs, other colleagues, and agencies.
4. The post holder will ensure that accurate and up to date records are kept of all clinical activity.
5. The post holder will be expected to have good IT skills and to use the Trust's electronic case record system.

Management:

This is not a formal management position, however as a Senior Clinician you are expected to:

1. Support the team manager and other consultants in managing members of the multi-disciplinary team to ensure a high level of patient care and ensure patient safety.
2. Act as line manager to all medical members within the team offering clinical supervision as appropriate.

3. Address all areas of clinical governance within the multidisciplinary team. The components of clinical governance include Education and Training, Clinical Audit, Clinical effectiveness, Research and Development, Openness and Risk Management.

Leadership:

1. To participate in the development of an effective team and the development of productive working relationships throughout the Trust.
2. To actively promote professional integrated health working, internally and externally.
3. To facilitate the development of a positive and supportive team culture by taking responsibility for dealing effectively with potential conflict.
4. To take an active interest in working parties and groups within the Trust to develop and improve on service delivery, protocols, and guidelines.
5. To participate in the audit process, linking in with the clinical governance agenda.
6. To advise, encourage and share knowledge utilising the latest research and practice development, through literature and peer reviews.
7. Support the AMD in strategic service development and business planning.
8. Lead compassionately on the evolution of services.
9. Engage patients and staff in the development of services.

Communication:

1. To have a wide range of knowledge in approaches to communicating and managing patient care.
2. To be able to effectively communicate with colleagues, peers, senior managers, and clinical leads within the Trust.
3. To be able to communicate complex patient related information facilitating positive outcomes and ensuring collaborative working.
4. Participate in the review and development of clinical policies and identifies improvements to service provision.

1.3 Provisional Job Plan:

Specimen Timetable:

	AM	Type of Activity	PM	Type of Activity
Any day of the week	MDT Handover Patient Assessments/ Admin	DCC	Assessing and supporting physical health needs for children with EDs/attending relevant professional meetings CPD	DCC SPA

The final Job Plan (within the terms of the New Consultant Contract) will be agreed with the Associate Medical Director (AMD) and in consultation with the Integrated Care Director after a period of induction after commencing the post. The post holder should recognise that the job will evolve as teams develop, and the post holder should be willing to adapt to change when this becomes necessary. The typical split in DCC to SPA is 1.5 to 0.5.

The postholder will at a minimum, have annual Job Planning with the Associate Medical Director. This will be with or without the Integrated Care Director or Deputy Director. Timely job plan review will take place with the line manager when there are proposed workload changes to support safe working and identify the need for any additional support (e.g., unexpected request to cover a unit/ward/service in addition to current workload). The postholder's Personal Development Plan (PDP) from their last annual appraisal will form part of this process. The Trust's requirements will also form part of the job planning process.

We recognise that working in Essex means covering at times a very large area, so travelling as part of the job to review patients is considerable, thus travelling time will be factored in when planning assessments in the community.

1.4 Office, Admin, and IT Facilities:

The postholder will have access to shared office space at 125 New London Road, Chelmsford, Essex CM2 0QT. The postholder will also have access to private rooms at the main base.

NELFT is promoting agile working for its workforce, and therefore the post holder will also have access to a laptop giving access to Electronic Patient Records and the Trust's information systems, and a smartphone.

The post holder will receive the necessary admin support from the dedicated medical administrators.

During induction the post holder will be given all the necessary training to use our software systems. The post holder will have full support from our well-established Healthcare Informatics department, which is available 24/7 to deal and support any IT queries. The post holder will also have internet access to e-mails, Trust policies and other information.

1.5 Other Aspects of the post:

Appraisal and Revalidation:

The post holder will be required to engage in the annual appraisal process in line with Trust policy and GMC guidelines. The Revalidation and Appraisal Lead will allocate an appraiser to the post holder if it is deemed that NELFT will be the post holder's Designated Body for the purposes of Revalidation.

Necessary Registrations:

The post holder must be registered with the GMC and have a licence to practice. The post holder must have CCT or equivalent qualification. It is also the post holder's duty to ensure that their training and registration remains up to date.

CPD:

NELFT appreciates the importance of; and supports all our consultants to undertake regular Continuous Professional Development and make sufficient provision for this within

their job plans. There is strong support from the trust for CPD and offers free subscription to CPD online from the Royal College of Paediatric.

The post holder will be expected to develop and maintain a programme of personal continuing professional development, and to enrol for CPD with the respective Royal College and annually submit documents to support their CPD activities. The post holder must maintain good standing with the Royal College of Paediatric for CPD.

The post holder will typically have 0.5 PAs per week for Supporting Professional Activities (SPAs). Professional/study leave of up to 2 days per year (or 6 days over 3 years) will be made available for this purpose in accordance with the Terms and Conditions of Service. The post holder will also have access to a study allowance of £200 per year (or £1500 over 3 years). Professional/study leave may include conferences, courses, shadowing, delivering, or receiving teaching/training, paper writing, fieldwork, and examining and private study leave.

As part of CPD the post holder will be encouraged to attend the weekly local Academic Teaching Programme. The post holder will be expected to become part of a Peer Reference / Support Group with a group of peers drawn from within NELFT, in order to discuss and review complex / challenging clinical cases and to provide support in achieving their Personal Development Plan.

Research and development (R&D):

Research is not mandatory in this role but would be encouraged if the postholder has a specific interest in research.

The R&D Department is responsible for a sizable portfolio of mental health and community health studies. The Department of Health has consistently rated NELFT research as strong with major research grants and high-quality peer reviewed publications. NELFT has a growing number of NIHR portfolio research studies. The R&D Strategy approved by the Trust Board focuses on attracting and retaining high quality staff, increasing the business base, developing, and informing the service model, enhancing the academic culture, boosting grant funding, supporting research, and developing partnerships and reputation.

NELFT encourages high quality research by providing access to high quality academic supervision, training, and statistics and methodology assistance. In addition, there are workshops, open days, and funding to support higher degree courses with a major research component. The R&D Department also manages research governance procedures to ensure good practice in research. There are regular updates through a newsletter, email, and the R&D website. Researchers are welcome to approach R&D for advice and support. The postholder will be encouraged to pursue research, with the possibility of linking this to the programme of such activity conducted within the Trust Research and Development Department headed by Dr Russell Razzaque or with other academic centres.

Library Services:

The Library (based at Goodmayes Hospital) provides library and knowledge services to NELFT staff, and staff of other subscribing organisations. NELFT staff based in Essex can also access a full library service from Basildon healthcare library.

The Library supports the provision of high quality, innovative, health and social care services in the local health economy by enabling access to the best available evidence and empowering health and social care staff to develop their evidence-based practice skills. The library also offers computer access, colour laser printer, photocopier and scanner, quiet study space, and support with literature searching and current awareness. A professionally qualified librarian and an experienced library assistant staff the library and are always happy to help.

The Library stocks around 2,500 print books and takes 40 print journals. Many resources are available electronically. Library staff will provide information and assistance by phone or email wherever possible. The library has access to the print collections of all other NHS London Libraries and over 100 other psychiatric libraries through reciprocal lending and document supply schemes.

NELFT staff based in Essex can also access some library facilities (including study space) and services (including book loans) from our colleagues at the following Essex NHS libraries:

- Medical School Anglia Ruskin University Library – Chelmsford
- Princess Alexandra Hospital Library – Harlow
- Basildon Healthcare Library – Basildon Education Centre
- Medical Academic Unit – Broomfield
- Southend Healthcare Library – Southend Education Centre

Please note you will be referred to The Library for access to some resources and services.

Medical Education Department:

Dr Peter Carter who is the Director of Medical Education (DME) leads the Medical Education Department. Dr Luca Polledri is the postgraduate tutor for higher and foundation trainees; Dr Gemma Hopkins is the postgraduate tutor for Core and GP Trainees. Dr Bini Thomas is the Simulation Training Lead. Dr Israel Gonzalez is our tutor for SASG doctors. We also have an SASG Advocate, Dr Jermaine Bamfo. Our Less than Full Time champion is Dr Amber Selwood. There is a Supported Return to Training Champion (SuppoRTT) is Dr Sonali Gupta. Dr Kala Shanmugananda is the paediatric Medical Educational lead for NELFT, and Dr Sita Jayakumar is the local paediatric Educational Lead.

The NELFT medical education department delivers undergraduate and postgraduate (core and higher) education and training. Our dedicated medical education team provides professional support to our trainees and members of staff. Due to our geographical context, our medical education department has key relationships with two health education bodies, Health Education North Central and East London (HENCEL) and Health Education East of England (HE EOE), which liaise with us to provide high quality education and training to doctors in the trust. We also work with University College London Partners (UCLP).

We attract doctors of the highest calibre to enjoy excellent training in a friendly, nurturing environment. They range from FY trainees to higher specialist trainees mainly in psychiatry but also in Paediatrics, Geriatrics and Audio-vestibular medicine.

NELFT medical education department has a very active simulation training programme not only benefiting NELFT staff but also open to staff from neighbouring acute trusts and psychiatry trainees from the 5 mental health trusts in the region. The department runs a separate monthly CPD afternoon for Consultants and SASG doctors. The department is

supported by 2 medical fellows, one nurse fellow in education and 3 postgraduate tutors. Consultants have plenty of opportunities to contribute and develop their educational interests.

NELFT is actively involved in teaching Undergraduate medical students, providing 4th Year Psychiatry placements and 2nd year “Medicine in Society” placements for students from Barts & The London School of Medicine and Dentistry, Queen Mary, University of London and a smaller number of 4th year Psychiatry placements for students from University College London (UCL). Doctors may also choose to offer optional “special interest” sessions to 4th year medical students and Selected Study Components to 5th year students who wish to study, in depth, areas of particular interest to them. There are opportunities for interested medical staff to teach on the formal medical school lecture courses.

The Undergraduate Tutor – coordinates placements within the Trust and recent faculty development have seen the appointment of Fellows in Medical Education and provision of “Teaching the Teachers” training courses.

Undergraduate and postgraduate teaching commitments are acknowledged and timetabled within the formal job planning process.

Several of our consultants are also Educational Supervisors, which is coordinated by the Director of Medical Education, and in liaison with the relevant Training Programme Directors and Postgraduate Tutors.

We have been successful in several bids for funding to improve our medical education facilities. We run a Leadership Course, which is approved by the Institute of Learning Management for senior trainees and have received funding to run a management course for junior trainees. In the past we have run Leadership Programmes for staff grade doctors as well.

Audit/Quality improvement (QI):

The post holder will be expected to participate and complete audit/quality improvement projects.

Clinical audit at NELFT is a clinician led quality improvement activity where medical staff have the opportunity to show leadership, make decisions, organise, and motivate other team members for the benefit of service users.

Clinical audit is a vital area of activity for both trainees and more senior staff and will be a key area under revalidation, as you will be required to provide:

- Evidence of participation in clinical audit
- Evidence that you have reflected on the results of clinical audit
- Evidence that you have acted on the results of clinical audit. This includes action planning which is also a key requirement at NELFT.

Audits are focussed on specific Trust priority areas for clinical audit determined by consultation with clinical and operational management. Support for medical staff undertaking clinical audit is offered at a number of levels including (where applicable) from: the educational supervisor, clinical supervisor, local directorate clinical audit leads, Trust clinical audit Lead, audit facilitator and stakeholders relevant to the clinical audit. The Post

holder will be expected to participate fully in clinical audit activities and to encourage audit amongst other team members to facilitate best practice.

Dr Stephen O'Connor is the Associate Medical Director for Quality Improvement.
Our Director of Quality Improvement is Mirek Skrypak.
Halima Begum is the Trust's clinical lead for Audit.

Mentoring:

The post holder will have the option to access mentoring from an experienced and trained mentor within the Trust and, if additional support is desired, arrangements can be made for supervision sessions from the Associate Medical Director.

Leave:

The annual leave entitlement is 32 days per annum, increasing to 34 days after seven years as a consultant. (Please see table below) Annual leave is pro-rata.

Consultants annual leave entitlement exclusive of public holidays and extra statutory days, is in accordance with the T&Cs 2003 - Schedule 18, as shown below.

Year	Up to 7 years' service completed as consultant	7 or more years completed as consultant
Until 31 March 2004	6 weeks (30 days)	6 weeks (30 days)
1 April 2004 – 31 March 2005	6 weeks (30 days)	6 weeks (30 days) + 1 day
From 1 April 2005	6 weeks (30 days)	6 weeks (30 days) + 2 days

Study Leave entitlement is 6 days to be taken over a 3-year period. Leave should be applied for in line with the Trusts' Annual Leave Policy and Procedure for medical staffing.

Cross-cover:

As the only paediatrician in the team there are no practical cross cover arrangements in place.

External Duties:

The Trust supports consultants to take up and carry out external duties i.e., Royal College roles, HEE roles, within the context of job planning.

The post holder is required to:

- Work in accordance with Trust policies and guidelines always,
- Always adhere to the Trust Information Security Policy, in particular ensuring that there are no breaches of confidentiality because of your actions,
- Carry out other duties commensurate with the grade as directed.

3.1 Essex Directorate:

The Essex Directorate forms one of the 7 Operation Directorates in NELFT. The other Operational Directorates include Acute and Rehabilitation Directorate (ARD); Barking and Dagenham; Havering; Kent; Redbridge; and Waltham Forrester.

Our Essex directorate mainly provides services to children and young people, both mental health and physical health, however we also provides service to Older Adults for both mental health and inpatient physical rehabilitation.

The population of Essex on Census day 2021 was 1,503,300, not including Southend or Thurrock. With Southend and Thurrock included the total population for Essex is 1.9 million. This represents an increase of 109,713 over the last 10 years (since Census 2011) – an average annual growth rate of 0.76%. This growth is at a faster rate than England (0.64% growth per year), but is similar to that of London (0.74%). The areas with the highest average annual growth rate are Uttlesford, Harlow, and Thurrock. The areas with the lowest average annual growth rates are Castle Point, Rochford, and Southend. The population of Essex is slightly older than England as a whole, this is due to lower proportions of 15 – 39s & slightly higher proportions in most ages 50+. The fastest levels of population growth can be found amongst the 70 – 74 age group. This group has grown by 44% over the past decade (from 59,216 in 2011 to 85,200 in 2021). The 70 – 74 age group is the fastest growing age group nationally, though the national growth rate is slower compared to Essex at 37%. 51.3% of the Essex population is female, and 48.7% are male.

The overall population density in Essex is 435 people per square kilometre. This is similar to the overall England population density of 434. Essex is one of the largest counties in the country (3,464 square kilometers), with a mix of rural & urban areas. Looking at the overall Essex number hides the variation across Essex. Population density in Southend is almost 10 times higher than Essex overall. Within Essex the highest population densities are Harlow, Castle Point, and Basildon. Density is increasing everywhere across Greater Essex as the population increases. Harlow has the largest increase in population density over the last 10 years, up 13.9% (from 2,683 to 3,055). The least populous are Maldon, Brentwood, and Rochford.

The number of households in Essex has increased by 7.7% over the last 10 years, from 582k to 627k. Everywhere in Essex has seen an increase in the number of households over the last 10 years. The number of households has increased fastest in Uttlesford, Colchester, and Harlow. On average there are 2.40 people per household in Essex. This has remained stable since the last census, and is slightly lower than the England value (2.41). Thurrock, Harlow and Epping Forest have seen the largest increases in the number of people per household, and Rochford & Tendring have seen the largest decreases. Thurrock has the highest average number of people per household at 2.7. 82,000 children are living in poverty in Essex. The indicators of health are good when compared to averages for England but with large differences in life expectancy between districts.

There are three cities in Essex: Southend, Colchester and Chelmsford. There are very good railway links to London.

Essex services have a culture of continual learning and development. Several service development and QI initiatives are being progressed.

3.2 Composition:

The Essex Directorate overall hosts 5 main areas of service delivery:

1. Community CAMHS services across Southend, Essex, and Thurrock (SET) including CAMHS Learning Disability and CAMHS Eating Disorder
2. CAMHS Crisis team across Essex
3. Community Paediatric across Thurrock, Basildon and Brentwood
4. Community Dementia Crisis team across Thurrock, Basildon and Brentwood
5. Inpatient Older Adult physical rehabilitation based at Mayfield in Thurrock, Brentwood Community Hospital in Brentwood and Mountnessing Court in Billericay

NELFT began providing CAMHS services in Southend, Essex, and Thurrock (SET) from November 2015. The long-term aim was to offer an earlier response to children's needs, in order to help prevent, reduce, or delay the need for more specialist interventions. The transformation of children and young people's mental health services has a clinical focus, with complete integration with local authorities, to deliver a long-term collaborative approach to planning and delivering services. The service focus on mental health and wellbeing and include access to self-help tools and services based in schools and the community. The NHS and local authorities in Essex, Southend and Thurrock awarded a £13.2million contract to NELFT to deliver a single, easily accessible, emotional wellbeing and mental health service (SET CAMHS) for children and young people across the whole county. We aim to create a modern service that fits in with children's lives in a way that best suits them. A single point of access into the service, clear signposting, and use of

digital channels to access support and services will allow more children to obtain help and support or even empower and up-skill to self-help, sooner.

Our SET CAMHS Service is delivered in partnership with HCRG Care Group and the Service Model consistent with the Thrive Framework for System Change, an integrated, person centred, and needs led approach to delivering mental health services for children, young people and their families. The THRIVE Framework ensures thinking about the mental health and wellbeing needs of children, young people, and families through five different needs-based groupings: Getting Advice and Signposting, Getting Help, Getting More Help and Getting System Support and Safety Planning.

SET CAMHS has 7 locality teams across 7 Essex CCG areas with doctors in each area. These locality teams are:

- Basildon and Brentwood (BB)
- Thurrock
- Castlepoint and Rochford
- Chelmsford (Mid Essex)
- Clacton & Colchester (North East Essex)
- Harlow (West Essex), and
- Southend on Sea

In addition to the 7 locality teams there are 3 Crisis and THT teams that function across the Essex County area (SET CAMHS footprint). The crisis teams provide rapid assessment of crisis and risk issues of children and young people presenting to A&E Departments and provide support to children in crisis in the community. The post holder alongside a Specialty Doctor will ensure substantive medical input, support, and leadership to the currently nurse led 3 Crises and Therapeutic Home Treatment Teams. during working hours. Support out of hours will be provided by the on-call consultants.

The SET CAMHS service also benefits from a Learning Disability Team and an Eating Disorders Team. Both services cover all the 7 Localities in the SET CAMHS. The Eating disorders team and the Learning Disability Team are staffed with 1wte Consultant each and are centrally based in Chelmsford.

SET CAMHS works closely with EPUT (Essex Partnership University Trust), who provides the Adult, Early Intervention of Psychosis and CAMHS Inpatient (Tier 4) services.

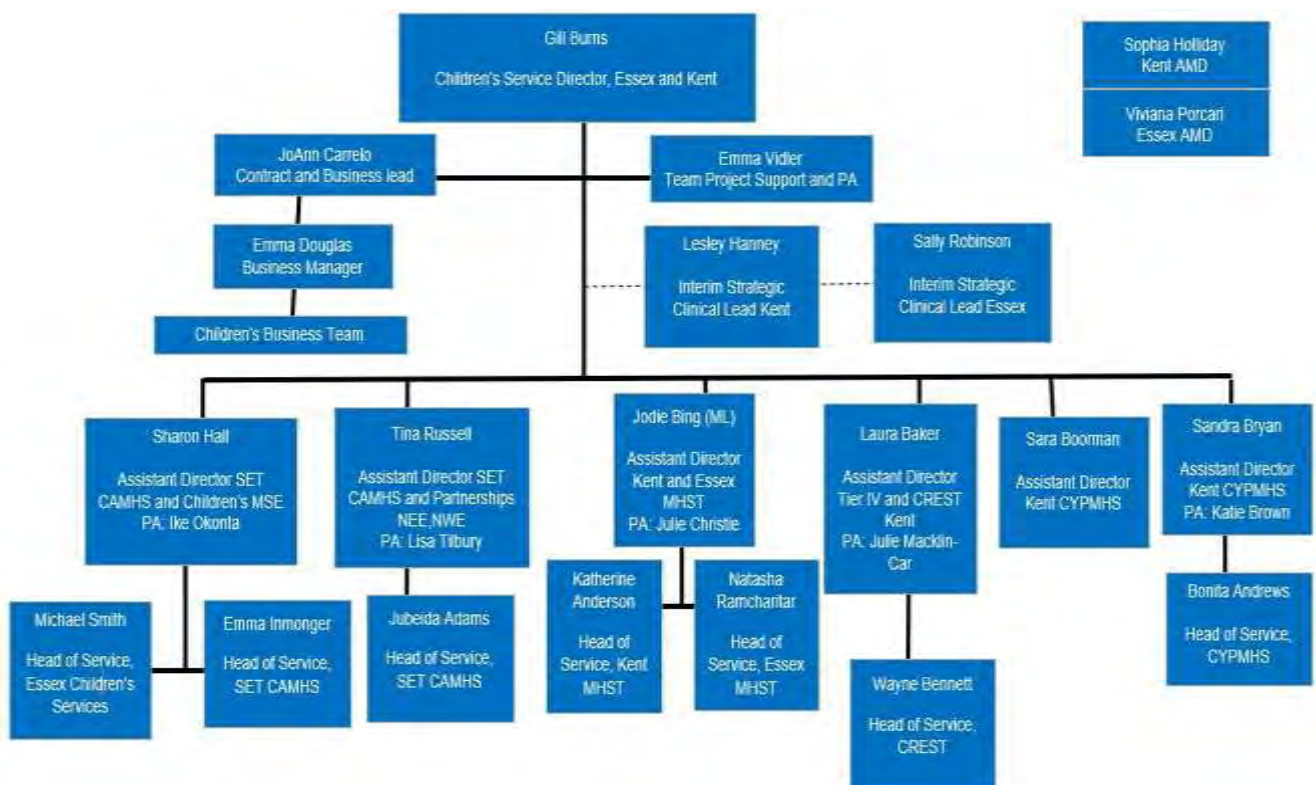

Each locality team ensures that the service is tailored to meet local need, links to local systems, resources, and services. The locality teams provide easy access, high quality, comprehensive, outcome focussed and evidence-based interventions following an integrated care pathway approach across health, social care, education, voluntary and the community sectors. The locality teams also advise and support services to maximise capacity to build resilience and provide early intervention.

The size of each CYPMHS/YPWS locality team is based on several factors, including the index of multiple deprivation and access score, predicted and historic referral numbers, geography, children and young people's population and current demographic data. Each locality team in CYPMHS/YPWS delivers across multiple clinical care pathways combining both brief and longer-term interventions. All staff have full mobile working access to ensure they can deliver interventions from a range of venues as clinically appropriate (e.g., GP

practices, children's centres, schools, homes, and importantly inpatient units where needed).

3.3 Leadership:

Each Operational Directorate is lead by an Integrated Care Director (ICD), Associate Medical Director (AMD), and a Director of Nursing (DoN). We have also appointed Deputy Associate Medical Directorates within some directorates to strengthen Medical Leadership, and provide support to the AMD.

3.4 SET CAMHS Community Crisis and Therapeutic Home Treatment Team:

The Crisis and THT Teams are a multi-disciplinary team of mental health professionals providing a 24-hour, 7 day per week, service for children and young people in Essex, Thurrock, and Southend. The Crisis teams provide a service for children and young people, under the age of 18 years. The service is also for anybody who remains open to the service with special educational needs (SEN), up to the age of 25 if appropriate to do so.

The Crisis team includes two aspects of care: General Acute Hospital assessments and Therapeutic Home Treatment (THT). Team members work across all aspects of service delivery to maintain continuity and skill mix and offer specialist crisis assessments and evidenced based brief therapy interventions to children and young people. Support can

take place in both the community and in General Hospitals, including A&E departments, paediatric departments, and other medical wards.

The service offers specialist and timely assessments and can provide an alternative to CAMHS admission. The Therapeutic Home Treatment offer within the Crisis team is part of the extended network of community-based SET CAMHS teams, which provide support to children, young people, their families, and carers. Referrals into the service are needs based in relation to crisis situations, where escalating risk or preventing admission is required, or to support reintegrating into the community safely following admission. This support can include support calls and home visits, and brief pieces of therapeutic family-based work focussed on stabilisation.

The SET CAMHS crisis team offer assessment and interventions to those young people presenting with mental deterioration or crisis presentations. As a service we work within the Thrive model (Getting more help and system support/risk management) and implement collaborative care plans with our community services and community SET CAMHS teams to promote positive outcomes for vulnerable young people and their families. There are opportunities for joint working and coordination, alongside the community-based teams.

Referrals are received from the Local Accident & Emergency (A&E) Departments as well from both the Local Single Point of Access (SPA) services and Out of Hours Service Mental Health Direct.

The Crises and Therapeutic Home Treatment Team are divided into three distinct teams covering separate geographical areas, which include six General Hospitals and seven SET CAMHS Hubs. The teams are nurse led and offer assessments to children and young people in the community and General Hospitals, including A&E departments, paediatric departments, and other medical wards: These teams are:

- North Essex – covers Colchester and Clacton, including Colchester General Hospital,
- Mid and West Essex – covers Chelmsford, Maldon, Halstead, Braintree, Harlow, Saffron Walden, and Loughton and includes Broomfield Hospital, Chelmsford and Princess Alexandra Hospital, Harlow, and
- South Essex – covers Basildon, Southend, Thundersley, Benfleet, and include Basildon University Hospital and Southend University Hospital.

The Crisis and THT runs twice daily MDT meetings at 9am and 4pm of 1 hour each, to discuss the daily urgent cases and crisis across Essex and support the team and the doctors in planning which patients need to be prioritised.

The Therapeutic Home Treatment operates within the Crisis teams and is available to support the generic CAMHS teams where they have cases who are presenting in crisis, and it is felt they could be at risk of Tier 4 admission. These cases will be discussed in the weekly meetings and the crisis team will be able to joint care plan for additional support to be offered. Where cases are particularly high-risk regular home visits and outreach-based intervention can be offered. This support also applies to those young people who have been referred in via the A&E pathway, and where we feel further deterioration, or a repeat presentation is likely.

This support can be offered for 2 weeks initially and will be reviewed on a weekly basis with the generic CAMHS team to discuss suitability/need to extend treatment, with a maximum of 6 months for the most complex/high risk cases.

Interventions could include/is not limited to, brief therapeutic interventions using approaches such as Dialectical Behavioural Therapy, Cognitive Behavioural Therapy, Systemic family therapy, Mentalisation Based Therapy, Psycho-dynamic therapies, Creative therapies. The overall approach will be person centred and needs focussed online with the Thrive model.

Patients admitted to general hospital/paediatric wards are review twice daily by the Crisis and THT nurses and might require weekly psychiatric reviews to support the work of the Crisis team and the care plan with the community team. The Consultant will be expected to jointly work with the consultants and nursing team from the paediatric ward and medical ward where the patient might have been temporarily admitted, informally or under the MHA.

Referral rates vary between the three localities (10 to 40), however not all of these require psychiatry oversight. Currently, no more than 10 patients under the crisis team have crisis consultant psychiatry input, with the rest receiving supported from the crisis practitioners and supported long term by the locality consultant if needed.

The consultant caseload across the three Crisis and THT teams comprises of the patient presenting in mental health crisis across Essex and open to the Crisis and THT team and will be expected to be an average of 10-12 patients, with an average of 2 new psychiatric assessment per week, and the rest follow up patients, assessed either face to face or virtual.

SET CAMHS Eating Disorder Community Team composition:

Consultant Psychiatrist	Consultant	1wte
Paediatrician with Specialist Interest in ED (This post)	Consultant	0.2wte
Team Manager	Band 8a	1wte
Clinical Lead/Family Therapist	Band 8b	0.9wte

Specialist Nurse	Band 6	2.81wte
Assistant Psychologist	Band 4	1wte
Admin Medical Secretary	Band 4	0.5wte
Admin	Band 3	2wte

In 2015, NELFT was awarded the contract to deliver a children and young people eating disorder service across the whole county. This team offers specialist assessment and treatment to people aged between eight and eighteen with Eating Disorders. The service works with individuals and their families to support them in their recovery.

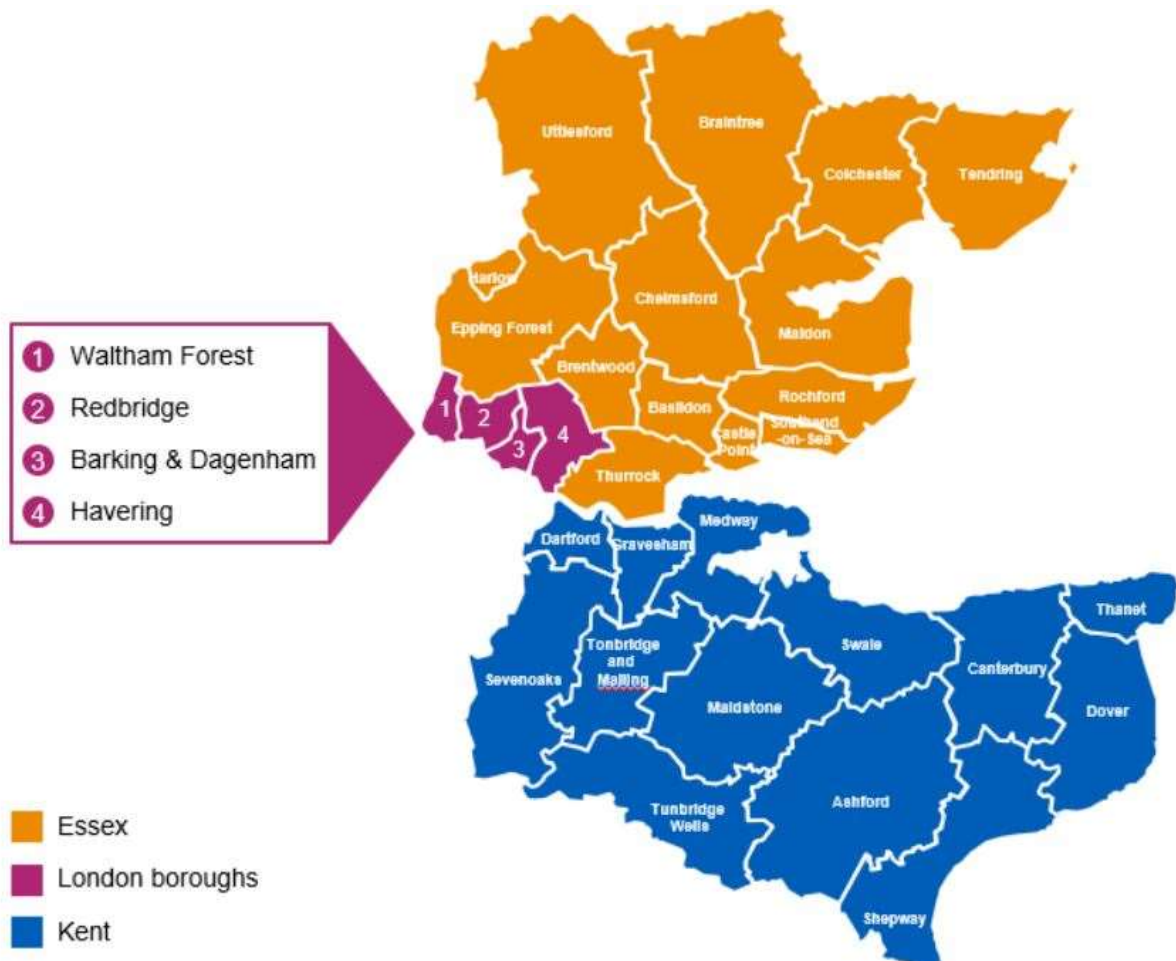

NELFT has been developing and implementing the new structure from 2016. The service is based in Chelmsford Essex but covers the Essex County. The service accepts self-referrals as well as referrals from professionals.

Services the SET CAMHS ED provides include:

- Psychological treatments delivered to young people and families on an individual basis or in a group
- Dietetic input and nutritional support
- Medical and nursing assessment and intervention.

The SET CAMHS ED team provides the latest in evidence based NICE compliant psychological interventions to clients and their families with an Eating Disorder. The team's multi-disciplinary approach to the assessment and treatment of individuals with an eating disorder is a real strength. SET CAMHS ED Team also offer assessment for Avoidant Restrictive Food Intake Disorder (ARFID) and works in close liaison with Community Paediatric Services and community dietitians.

4.1 NELFT Profile:

NELFT provides award winning community and mental healthcare for over 4.9 million people across 2,914 square miles of parts of Kent, Essex and North East London.

We work to ensure our patients, their friends and family, feel confident that their health needs are well met. With an excellent reputation for research and development, and quality improvement, our skilled health professionals are at the cutting edge of evidence-based innovation, opening up the possibilities for better ways of working and delivery of

care. Our journey includes significant engagement with our people who use services, and we are an early adopter of the Patient and Carer Race Equality Framework.

We employ over 6,500 staff and operate with an annual budget of more than £490 million in order to deliver the *best care by the best people* across the communities we serve.

We as an organization take pride in our achievements in the Workforce Related Equality Standard (WRES) and have an active Ethnic Minority Network (EMN) for our staff. We also have several other networks, all of which make a vital contribution to our vibrant and inclusive organisation.

We are in the top 10 most improved Trusts in the NHS National Staff Survey, with all ten elements measured in the top quartile of results (2020), and we are in the top four organisations in London for the 2021 NHS National Staff Survey.

Since the introduction of a Freedom to Speak Up Guardians in 2016, nationally the FTSU Index has improved and risen from 75.5% in 2015 to 79.2% in 2020. This news story is even better for NELFT as our 2020 index score is 81.6% which is above region and sector.

Our staff are incredibly important to us, and we have focused on ensuring that our staff are well supported. We have developed numerous initiatives across the Trust supporting staff wellbeing (e.g., self-care, work-life balance, stress management, coaching/mentoring) and individuals are encouraged to complete a Personal Wellbeing Plan. Individuals have access to a wide range of benefits which include flexible working, flexible retirement, cycle scheme, gym discounts and other benefits. Teams can access reflective and wellbeing support sessions where they need.

Research and Development is strong at NELFT, and we are the top recruiter to NIHR trials for a MH Trust in the North London Region with over 44 portfolio studies and 14 non-portfolio studies running at the Trust. We are in receipt of circa £2,363,915 in 20/21, over 50% of this income is from research grants that NELFT are leading and sponsoring.

Our Quality Improvement team have trained more than 325 facilitators and 30 mentors in Institute of Healthcare Improvement (IHI) methodology, and we are using QI as the way to drive better services for patients and staff across the organisation. Our commitment to Quality is strong and our journey of improvement ongoing.

We know that Clinical Leadership is key in delivering safe and effective services and the Trust has invested in clinical leadership across all clinical specialities, with £2.4 million earmarked over a three-year period. We have already recruited to many different Clinical Leadership posts to ensure all our services are clinically led and operationally enabled.

We have embarked on a journey to implement a compassionate and collaborative culture across the organisation to ensure staff are supported and patients receive the best possible care.

We have numerous accreditations across our services and are currently rolling out the AIMS program across our adult acute inpatient units, which is an exciting and patient focussed program. Our CAMHS unit in our London service is already part of the Quality Network for Inpatient CAMHS. KMAH is currently in the process of obtaining QNIC accreditation.

NELFT provides Children's Community Health Services in Kent, Essex (Basildon, Brentwood and Thurrock), and North East London (Waltham Forest, Redbridge, Havering and Barking & Dagenham). These services are integrated and multidisciplinary and include targeted and universal services. Targeted services include CAMHS services and the Specialist Community Children's Services (SCS). The targeted services have a single point of access in each borough and treatment pathways that follow from there. MDT referral meetings are established in most localities for discussion regarding complex cases. There are 2 main strands from the single point of access; a CAMHS/Emotional Wellbeing pathway and a Specialist Community Health Services Pathway. Some Care Pathways overlap both CAMHS and SCS e.g., ASD/ADHD and LAC. Joint Paediatric – CAMHS clinics are established in some boroughs. Universal services also have a single point of access and include Health Visiting and School Nursing services. The Children and Young people's Clinical Integrated Group facilitates integrated and standardised pathways for children's physical and mental health and quality improvement within children's services throughout the Trust.

We are excited that we are partnering with QMUL to recruit a Professor for CAMHS and a Professor for Paediatrics, in recognition of our commitment to delivering outstanding children's services to our population.

Our mental health services include:

- Specialist inpatient and community-based treatment and care for people experiencing acute mental illness,
- Help for children and young people with emotional, behavioural, or mental health difficulties,
- Care for people with dementia,
- Specialist community eating disorder teams,
- Specialist community perinatal teams,
- Specialist community personality disorder teams,
- Support for people with problems associated with drug and alcohol misuse.

Our community services are provided in clinics, hospitals and in people's own homes, and include:

- Care and support for people living with long term conditions such as diabetes,
- Speech and language therapy,
- Health visiting, district and school nursing,
- Specialist community paediatric, therapy and nursing services.

Many services that in other areas may be provided in hospital, such as blood testing, footcare and children's audiology.

We actively sought to develop our stakeholder partnerships locally and are fully engaged in the development of Primary Care Networks, Sustainable Transformation Projects, and Integrated Care Systems. This is led locally by the Integrated Care Directorate leadership teams to ensure that the needs of our local populations are met. Partnership work with our governors, people using our services and our staff is also critical in maintaining momentum and energy for the changes that the future of public services will demand.

Benchmarking of our services and their performance has proved that we are often leading the field. Our focus on high quality and value for money means we are able to play a key

role in supporting the local health economy to provide integrated healthcare services for local people.

Area demographics:

Area	Total Population	CYP	Adult	Older Adult
Barking & Dagenham	214,107	58,551	135,749	19,807
Essex	1,800,000	359,000	1,100,000	367,000
Havering	260,651	53,208	160,925	46,518
Kent	1,900,000	367,000	1,100,000	364,000
Redbridge	305,658	76,447	189,938	39,273
Waltham Forest	277,000	66,750	180,250	29,980

4.2 Trust Management & Medical Management structure:

The Trust Board is made up of executive and non-executive directors. They work together to set the strategic direction and priorities for our organisation. They are held to account by our Council of Governors.

The executive directors are also part of our wider Executive Management Team, which is responsible for the day-to-day running of the Trust. Other members of our Executive Management Team attend board meetings.

Our Trust Board:

Executive Management Team:

Chief Executive (Accountable Officer)	Leads the organisation and Executive Management Team Responsible for IT and Performance
Executive Medical Director	Clinical and medical leader working with workforce to improve quality and effectiveness of clinical services
Chief Nurse & Executive Director AHP & Psychological Professions	Lead for Nursing, Allied Health Professionals, Psychological Therapies, Quality, Risk, Patient Safety and responsible director for operational services in Essex and Kent
Director of Operations	Responsible for clinical operations
Executive Director of Finance	Responsible director for finance, business development and transformation
Executive Director of People & Culture	Responsible for workforce resourcing, leadership and organisational development
Executive Director of Partnerships	
Director of Corporate Affairs (Trust Secretary/ Legal Guardian)	Responsible for corporate governance, health and safety, freedom to speak up, charity and Chief Executive office
Director of Communications & Engagement	Responsible for internal and external communication and engagement

Medical Management Structure:

Our Chief Medical Officer is Dr Caroline Allum, who also acts as the Responsible Officer. Our Medical Director is Dr Vincent Perry, who also acts as Deputy Responsible Officer and Appraisal Lead. We have operational Associate Medical Directors who lead in one of the 7 directorates, and we have strategic Associate Medical Directors who lead across the organisation to implement standardised best practice. We have also appointed to Deputy AMD posts in the Directorates, as part of the Clinical Leadership investment.

Our 7 operational directorates include:

- Acute and Rehabilitation Directorate (ARD);
- Barking and Dagenham;
- Essex;
- Havering;
- Kent;
- Redbridge; and
- Waltham Forrest.

Our 3 strategic “Clinical Integrated Groups” include:

- Children and Young People;
- Adult Mental Health and Intellectual Disability; and
- Older People and Frailty.

4.3 Trust values:

NELFT's Trust values are:

Expectation from the post holder:

The post holder will be expected to support their team, department, and organisation to achieve the Trust's values in their day-to-day work.

Best care by the best people

4.4 Just and Compassionate Culture:

At NELFT we commit to a Just and Compassionate Culture for our colleagues and our patients. We will support and promote a culture based on fairness, respect, honesty, and trust, ensuring that we have consistent leadership behaviours and styles across the trust. Our vision is to create an engaging place to work and an organisational environment in which you feel valued, supported and where everyone has the opportunity to learn and improve when things don't go to plan.

A Just and Compassionate Culture is a diverse one where you bring your authentic self to work without fear and where all colleagues feel understood and supported by others. Our professional relationships are built on a foundation of mutual respect, trust, and honesty. We are committed to welcoming and making everyone feel valued here at NELFT.

5. Additional Information

Staff Health and Wellbeing:

Managing health and wellbeing is the responsibility of both the employer and the employee. The trust strives to ensure that staff are provided with an environment and opportunities that encourage and enable them to lead healthy lives and make choices that support their wellbeing. We will ensure the following is in place to support all staff:

- Local occupational health service for pre-employment and in-employment support is available. Our Occupational Health provider is OHWorks Ltd. Referral will be by their line manager with their consent.
- There is also access to an Employee Assistance Programme (EAP), which offers employees confidential, independent, unbiased information and guidance on a range of emotional, health and social issues. A range of other support services are available to provide emotional wellbeing support of a short- or long-term nature.
- Access to the WellNEL direct support service for North East London, providing emotional health and wellbeing support.
- Local organisational support for staff following serious incidents is available and teams can access reflective and wellbeing support sessions.
- A wide range of local initiatives/resources are provided to promote workforce wellbeing for example: self-care, work-life balance, stress management, coaching/mentoring, and individuals are encouraged to complete a Personal Wellbeing Plan.
- NELFT has also rolled out regular Schwartz rounds, which has proven popular under staff, and is a good food for thought and personal wellbeing.
- Individuals will have access to a wide range of benefits, which include flexible working, flexible retirement, cycle scheme, gym discounts and other benefits.

All staff will be provided with information on how to access these support resources during induction, and regular updates are also communicated in our Weekly Update Newsletter.

Health & Safety:

Employees must be aware of the responsibilities placed upon them under the Health & Safety at Work Act (1974) and subsequently published regulations to ensure that the Trust's Health and Safety policies and procedures are complied with to maintain a safe working environment for patients, visitors, and employees.

Infection Control:

Each staff member has a duty to take personal responsibility for the prevention and control of infection, in accordance with Trust Infection Prevention and Control Policies, which reflect the statutory requirements of the Health Act 2006 – Code of Practice for the Prevention and Control of Healthcare Associated Infection. They must attend mandatory training in Infection Control and be compliant with all measures required by the Trust to reduce HCAs.

Risk Management:

You will be responsible for adopting the Risk Management Culture and ensuring that you identify and assess all risks to your systems, processes and environment and report such risks for inclusion within the Trust Risk Register. You will also attend mandatory and statutory training, report all incidents/accidents including near misses and report unsafe occurrences as laid down within the Trust Incidents.

Safeguarding children and vulnerable adults:

NELFT is committed to safeguarding and promoting the welfare of children and adults and to protecting them from the risks of harm. The Trust recognises its responsibility to ensure that safe working conditions and systems are in place for staff working with children, adults, and families in their care. Staff are required to comply with Trust policies on Safeguarding.

Standards of Business Conduct & Conflict of Interest:

The NHS Code of Conduct and Standards of Business conduct for NHS Staff require all employees to declare all situations where you or a close relative or associate has a controlling interest in a business [such as a private company, public organisation or other NHS or voluntary organisation] or in any activity which may compete for any NHS contracts to supply goods or services to the Trust. All such interests must be declared in the Trust's register of interests either on appointment or when such interests are gained.

As an employee you are required to make yourself aware of and adhere to the Trust's governance policies, such as Standing Orders and Standing Financial Instructions.

Sustainability:

All staff has a responsibility for delivering high quality healthcare in a low carbon environment, where energy is used wisely and not wasted. It is the responsibility of all staff to minimise the Trust's environmental impact by recycling where possible, switching off lights, computers, monitors, and equipment when not in use, minimising water usage and reporting faults promptly.

Smoking Policy:

It is the Trust's policy to promote health. Smoking, therefore, is actively discouraged. It is illegal within the Trust buildings and vehicles.

Codes of Conduct:

NELFT requires the highest standards of personal and professional conduct from all its employees. All employees must comply with the Code of Professional Conduct appropriate to their professional governing body.

As an NHS employee, you are required to observe the following principles:

- Make the care and safety of patients your first concern and act to protect them from risk;
- Respect the public, patients, relatives, carers, NHS staff and partners in other agencies;
- Be honest and act with integrity;
- Accept responsibility for your own work and the proper performance of the people you manage;
- Show your commitment to working as a team member of working with all your colleagues in the NHS and the wider community;
- Take responsibility for your own and continuous learning and development.

Data Protection:

Personal data is protected under the Data Protection Act (1999) and the post holder will ensure that it is securely held and that the requirements of the Act are followed. It is the responsibility of all staff whose jobs requires them to record information in Trust Computer systems (e. g RIO, SystmOne and ESR) to ensure that the data entered into these systems is of high data quality and that information is recorded correctly and in a timely manner. Failure to adhere to this requirement could be considered a disciplinary matter.

Information Security and Confidentiality:

All employees are required to observe the strictest confidence regarding any patient/ client information that they may have access to, or accidentally gain knowledge of, in the course of their duties.

All employees are required to observe the strictest confidence regarding any information relating to the work of the Trust and its employees.

You are required not to disclose any confidential information either during or after your employment with the Trust, other than in accordance with the relevant professional codes.

All person identifiable information must be held in the strictest confidence and should be disclosed only to authorised people in accordance with NHS Confidentiality Guidelines [Caldicott] and the Data Protection Act 1998 unless explicit written consent has been given by the person identified, or where information sharing protocols exist.

Failure to comply with these regulations whilst in the employment of the Trust could result in action being taken under the Trust Disciplinary Policy and Procedure.

Equality and Diversity:

NELFT is committed to the implementation of the Equality and Diversity at Workplace policy which ensures equal opportunities for all. NELFT is also committed to embracing diversity and eliminating discrimination in both its role as an employer and as a provider of services. It aims to create a culture that respects and values each other's differences, promotes dignity, equality, and diversity, and encourages individuals to develop and maximise their potential. The Trust will ensure that it provides equal and fairness for all, and not to discriminate on the grounds of gender, marital status, race/ethnicity, disability, sexual orientation, religion, transgender or gender reassignment status, age, marriage, or civil partnership/same sex marriage, and because of you being pregnant or being on maternity/paternity leave. All staff are required to observe this policy in their behaviour to employees and patients/service users.

Key Performance Indicators (KPI):

Each individual and service will be set KPIs and achievement against these will be regularly reviewed. Performance against individual and service KPI's will be routinely monitored by your manager.

Review of this Job Description:

This job description is intended as an outline of the general areas of activity and will be amended in the light of the changing needs of the organisation. To be reviewed in conjunction with the post holder.

Other Duties:

There may be a requirement to undertake other duties as may reasonably be required to support the Trust. These may be based at other Trust managed locations.

Amendments:

This is a description of the post as it is at present constituted. In consultation with the post holder, periodic reviews will be carried out to ensure that the job description relates to the job being performed and to incorporate any changes being proposed. It is hoped that agreement can be reached to any reasonable changes. If this is not possible your line manager reserves the right to make changes to the job description in consultation with you.
