

Affiliated Teaching Hospital

## Band 7 – General Sonographer – Diagnostic Imaging Department

We are currently wanting to recruit an experienced, independent reporting sonographer to join our hard working, friendly and progressive non-obstetric team at Kettering General Hospital NHS Foundation Trust. We provide a comprehensive (non-obstetric) ultrasound service to a wide range of specialities within the hospital and local GP's.

The applicant should be enthusiastic, initiative-taking, well organised sonographer with ability to work autonomously to join our busy unit. You must be highly competent and keen to contribute towards efficient service delivery and excellent patient care.

Kettering offers great access to all the beautiful Northamptonshire countryside. It has excellent road and rail network links to and from London, the East Midlands and Birmingham and the hospital is just off the A14 giving easy access to the M1.

Kettering General Hospital provides acute health care services to an ever-growing population of around 280,000 in North Northamptonshire, South Leicestershire, and Rutland. We deliver our services from our main site and satellite outpatient facilities at three neighbouring units.

As an employer of over four thousand staff, we are one of the biggest employers in Northamptonshire.

We are looking for suitable candidate to support with a range of **general abdominal, small parts including soft tissue, musculoskeletal – large joints, vascular – DVT – lower limb including calf / superficial veins and AAA surveillance studies**. You will work independently, however support from other sonographers and Radiologists is always available and encouraged.

You must hold a UK recognised Pg. Diploma or Pg. Certificate in Medical Ultrasound or equivalent and state registration with HCPC or other recognised body is essential.

Join us and you will be part of a community that recognises your contribution.

For further information please email Dr K Lakhani (PhD) Lead Sonographer on [klakhani@nhs.net](mailto:klakhani@nhs.net).
